

Google Research Awards – December 2011

Economics and Market Algorithms

Moses Charikar, Princeton University

Michael Mitzenmacher, Harvard University

John Quinn, Makerere University

James Andreoni, University of California - San Diego

Education

Cathleen Norris, University of North Texas, and Elliot Soloway, University of Michigan

David Pritchard, Massachusetts Institute of Technology

Ben Bederson, University of Maryland - College Park

Judith Warren Little, University of California - Berkeley

Jan L. Plass, New York University

Geo and maps

Marie-Francoise Durand, Patrice Mitrano, and Benoit Martin, Institut d'Etudes politiques de Paris

Moustafa Youssef, Egypt-Japan University of Science and Technology

Kartik Ariyur, Purdue University

Bernhard Lehner, McGill University

Andrew Tatem, University of Florida

Health

John Brownstein and John Ayers, Harvard University

Vicki Hanson and Ian Ricketts, University of Dundee

Human Computer Interaction

James Weiland, Laurent Itti, and Gerard Medioni, University of Southern California

Charles Bigelow and Richard Zanibbi, Rochester Institute of Technology

Clifford Nass and Danielle Lottridge, Stanford University

Jeremy Wolfe, Harvard University

Eve Riskin, University of Washington

Leah Findlater, University of Maryland - College Park

Jean-Daniel Fekete, Institut national de recherche en informatique et automatique

Stephane Chatty, University of Toulouse

Andreas Bulling, University of Cambridge

Edward Adelson, Massachusetts Institute of Technology

Information Retrieval

Daniel Lidar and Silvano Garnerone, University of Southern California

Jacob Wobbrock and Jeff Huang, University of Washington

Panagiotis Ipeirotis and Anindya Ghose, New York University

Xiaoyan Zhu, Tsinghua University

Aude Oliva, Massachusetts Institute of Technology

Miles Efron, University of Illinois - Urbana-Champaign

Jiri Matas, Czech Technical University

Oren Kurland, Technion - Israel Institute of Technology

Vittorio Ferrari, Eidgenossische Technische Hochschule - Zurich

Mark Chignell, University of Toronto

Machine Learning

Noah Smith and Bryan Routledge, Carnegie Mellon University

Nathan Srebro, Toyota Technological Institute at Chicago

Koby Crammer, Technion - Israel Institute of Technology

Elad Hazan, Technion - Israel Institute of Technology

Machine Translation

Shaojun Wang, Wright State University

Nizar Habash, Columbia University

Alon Lavie, Carnegie Mellon University

Mobile

Zhuoqing Mao, University of Michigan

Sachin Katti, Stanford University

Serge Belongie, University of California - San Diego

Ben Zhao, University of California - Santa Barbara

Alex Pentland, Massachusetts Institute of Technology

Mayur Naik, Georgia Institute of Technology

Lin Zhong, Rice University

Bjoern Hartmann, University of California - Berkeley

Multimedia

Tsachy Weissman, Stanford University

Juan Carlos Nieves, Universidad del Norte

Luca de Alfaro, University of California - Santa Cruz

Natural Language Processing

Ivan Titov and Alexandre Klementiev, Universitat des Saarlandes

Hermann Ney, Rheinisch-Westfälische Technische Hochschule

Alessandro Moschitti, University of Trento

Mona Diab, Columbia University

Bing Liu, University of Illinois - Chicago

Hinrich Schuetze, University of Stuttgart

Networking

Ken Christensen, University of South Florida, and Pedro Reviriego, Universidad Antonio de Nebrija

Scott Shenker, University of California - Berkeley, and Barath Raghavan, International Computer Science Center

Zhenghao Zhang, Florida State University

Joseph Kahn, Stanford University

William Dally, Stanford University

Policy and Standards

Maciej Kisilowski and Bernadett Koles, Central European University

Privacy

Asimina Vasalou and Russell Beale, University of Birmingham

Moshe Lewenstein, Bar Ilan University

Jason Hong, Carnegie Mellon University

Heather Lipford, University of North Carolina at Charlotte

Anna Squicciarini, Pennsylvania State University

Security

Wenliang Du, Syracuse University

Ragib Hasan, University of Alabama at Birmingham

Jan Vitek, Purdue University

David Evans, University of Virginia

Social Networks

Susan Davidson and Julia Stoyanovich, University of Pennsylvania

Ulrik Brandes and Jurgen Lerner, University of Konstanz

Evimaria Terzi and Azer Bestavros, Boston University

Philip Fong, University of Calgary

Mor Naaman, Rutgers University

Matthew Salganik, Princeton University

Eric Gilbert, Georgia Institute of Technology

Chen-Nee Chuah, University of California - Davis
Cecilia Mascolo, University of Cambridge
Alan Mislove, Northeastern University
Tamara Berg, Stony Brook University

Software Engineering

Mark Harman and Shin Yoo, University College London
Wei Le, Rochester Institute of Technology
Vijay Ganesh, Massachusetts Institute of Technology
Willem-Jan van Hoeve, Carnegie Mellon University
Saman Amarasinghe, Massachusetts Institute of Technology
Roberto Natalini, Universitaa di Roma
John Regehr, University of Utah
Michael Ernst, University of Washington
Adam Chlipala, Massachusetts Institute of Technology

Speech

Stefan Bleeck and Matthew Wright, University of Southampton, and Ian Winter, University of Cambridge
Etienne Barnard, North-West University

Structured Data

James Cheney and Sam Lindley, University of Edinburgh
Yi Chen, Arizona State University
Anthony Tomasic, Carnegie Mellon University
Hanan Samet, University of Maryland - College Park

Systems and Infrastructure

Kunle Olukotun and Jason Mars, Stanford University
Tapan Parikh, University of California - Berkeley, and Umar Saif, LUMS
Ashvin Goel and Angela Demke Brown, University of Toronto
Remzi Arpaci-Dusseau and Andrea Arpaci-Dusseau, University of Wisconsin - Madison
Wojciech Matusik, Massachusetts Institute of Technology
Alan Willner, University of Southern California
Michael Spear, Lehigh University
Rodrigo Fonseca, Brown University
Emery Berger, University of Massachusetts - Amherst
Chunming Qiao, State University of New York - Buffalo
Mike Dahlin, University of Texas - Austin

Other

Tom Postmes, Namkje Koudenburg, and Ernestine Gordijn, University of Groningen

Richard Heusdens, Delft University of Technology

Noah Wardrip-Fruin, University of California - Santa Cruz

Hadley Wickham, Rice University

Ashutosh Saxena, Cornell University

George Alvarez, Harvard University
