Chrome Education license overview

In a business setting, **70 to 1** is the ideal ratio of users to IT professionals. We know in a school district with thousands of students, that is just not possible. That’s why we offer Chrome Education license to allow you to manage any number of devices from a simple cloud-based console.

**The easiest devices to set up and manage**
*Update 100 or 100,000 devices without touching a single one*

- **Manage devices easily**
  No other device management is cloud-based and so simple

- **24/7 support**
  When you need help, we are there—every single time

- **200+ customizable policies**
  Keep 95% of defaults, but adjust to give the exact experience you want

- **Chromebook management license**
  1-time, $30 MSRP that lasts the life of the device

“**I would say that we are saving more than 70% of our time** on managing the devices. If we were going to do this with another device, we’d have to almost double our staff...[W]e have all of these devices now, but we don’t hear people talking about managing them.”

**Chromebooks by the numbers**

- **#1 selling device**
  in U.S., Canada, Sweden, New Zealand, and Netherlands K–12 schools

- **30,000+**
  Chromebooks are activated in EDU every school day

- **30 million+**
  students worldwide use Chromebooks

- **13+ OEMs**
  Acer, Asus, Dell, HP, Lenovo, and more

**Chromebook sales growth**

*Global K–12*

I would say that we are saving more than 70% of our time on managing the devices. If we were going to do this with another device, we’d have to almost double our staff...[W]e have all of these devices now, but we don’t hear people talking about managing them.”

**IDC White Paper,**
*The Economic Value of Chromebooks for Educational Institutions*

User settings
Create a personalized experience for users on each and every device in your domain

- Push apps and extensions
  Lead students right to the apps and extensions that they need the most

- Customize the Chrome Web Store
  Create an instance of the Chrome Web Store specific to your school's domain

- Route through a proxy
  Specifies how your devices connect to the internet in order to track and filter activity

- Customize the user experience
  Automatically load websites on startup, add custom bookmarks, and block distractions

- Enable/disable hardware
  Control whether users can access webcams, speakers, external hard drives, or printers

Device settings
Give a custom, school-wide experience on each and every device, no matter who signs in

- Specify who can sign in
  Ensure educational use by disabling guest mode and restricting sign in to your domain

- Enrollment and access
  Prevents anyone from removing a device from your domain (no matter how sneaky they are)

- Autocomplete domain
  Speed up the sign in process—great for touch screen devices and younger students

- Enable cloud printing
  Grant access to Cloud Print, allowing devices to use any printer on your network

- Push out kiosk apps
  Lock devices into a secure environment for testing or set up digital signage

Public session settings
Customize devices to work as shared computers in public spaces, like the library

- Devices
  See all the devices logged into your domain; sort and filter the list to find relevant information
