Age Groups

Doodles will be grouped by the students' age. Age groups are broken down as: 7 - 9, 10 - 12, 13 - 15 and 16 - 17. There will be a winner in each grade group.

Design guidelines

The doodle should be presented on a white, landscape sheet of A4 paper only.

You can download the Google logo template from our website:

www.google.com.my/doodle4google

Students do not have to draw directly on the template but as the winning doodle will be displayed on the Google homepage, please ensure that the Google logo is clearly visible and recognisable.

The doodle can be in pencil, crayon, felt tip, paint, or can be created using computer drawing or design software. Unfortunately we cannot accept 3D entries.

Judging process

Google employees will shortlist the best doodles from each of the age groups. The best selected doodles will be judged by guest judges, who select the finalists for each age group. The public vote on the Doodle 4 Google website will determine winners in every age group.

Our official Google doodle team, made up of Google web designers, will select the winning doodle from the age group winners. This doodle will be shown on the Google Malaysia homepage.

Disqualifications

Doodles will be disqualified if copyrighted or trademarked images and logos are used. Examples of this would be the Nike "swoosh", popular characters from shows, movies and books.

Only one application per student please. If more than one is submitted only the first will be considered and those thereafter will be disqualified.

Entries submitted into the wrong age group will be disqualified.

Welcome to

At Google we use the homepage logo designs, or doodles, to celebrate different people, events or special dates. These doodles are usually created by our doodlers, who are also Google web designers. However, for the first time, we are delighted to be bringing Doodle 4 Google to Malaysia.

The theme this year is 'Malaysia to me is...'. We'd love to see doodles created by students that represent this theme.

When thinking about the theme 'Malaysia to me is...' we would like students to consider what they appreciate about Malaysia. What makes Malaysia unique and is loved by them. This can be anything, thinking about our culture, diversity, people, food, landmarks etc. Your imagination and creativity are what we value, please think about any unique images that represent Malaysia to you.
