

## Empower learning while minimizing the busywork

G Suite for Education helps teachers challenge their students with flexible, secure, and easy-to-use tools that are built for education.

### Connect and collaborate effortlessly.

Build stronger connections between students and teachers – even outside of the classroom. Collaborate online in the same document, and engage students to think more critically.

### Adapt and grow as needed.

Scale to meet the needs of every learner – from 10 students to 10,000. Our open APIs let you continually add value by connecting to different platforms or introducing third-party apps.

### Get started quickly and easily.

With a single login, users can access all of their files on any device. Teachers can assign lessons and grade with a unified set of tools, while IT admins can manage it all from one centralized dashboard.

### Protect and secure your data.

Google is committed to protecting teacher and student data. You own your data – we just keep it safe. Work is safeguarded, and users can be productive without distractions from advertising.

**140+** million  
students and teachers already  
use G Suite for Education

## Tools to power teaching and learning

### INSPIRE

Help students turn in their best work with tools that support writing development and critical thinking.

- Originality reports help find and fix missing citations
- Grammar and spelling suggestions improve language usage
- Always-visible word count tracks length to save time

### MANAGE

Simplify how teachers create assignments, grade work, and manage their courses – with all their tools and files in one place.

- Docs and Drive help you easily create and organize coursework
- Rubrics keep grading transparent
- Forms make permission slips and quizzes easy

### ORGANIZE

Keep your entire school on top of daily activities with features designed for efficiency across all devices.

- To-do lists and task reminders keep you on track
- Hangouts Meet virtually connects students and teachers, both inside and outside school
- Docs, Sheets, and Slides let you co-create and edit in real time

### PROTECT

Keep student and school data secure and compliant, monitor and control access, and configure settings from one central console.

- Data loss prevention for Gmail and Drive
- Hosted Secure/Multipurpose Internet Mail Extensions for Gmail
- Enterprise-grade access control with security key

Google complies with the Family Educational Rights and Privacy Act (FERPA), Children's Online Privacy Protection Act (COPPA), and ISO/IEC 27018:2019. For details, visit the Privacy & Security Center at [edu.google.com/privacy](https://edu.google.com/privacy)

“Google Docs has revolutionized how people are teaching. There’s more collaboration with students and there is a real-time feedback loop between faculty and students.”

– Melissa Kane, Instructional Designer, Brown University

## G Suite Enterprise for Education
