

Empower originality and critical thinking

Originality reports use the power of Google Search to help students properly integrate external inspiration into their writing – and make it easy for instructors to screen for potential plagiarism.

Let educators quickly assess authenticity.

Save instructors time when analyzing student work for potential plagiarism.

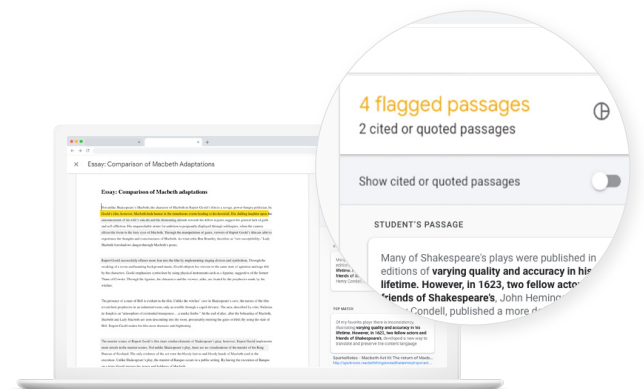

- Highlight missing citations and link directly to the external sources in the grading interface
- Get answers with a single click, and avoid searching for web matches manually
- Easily save and share reports, and even print them if necessary

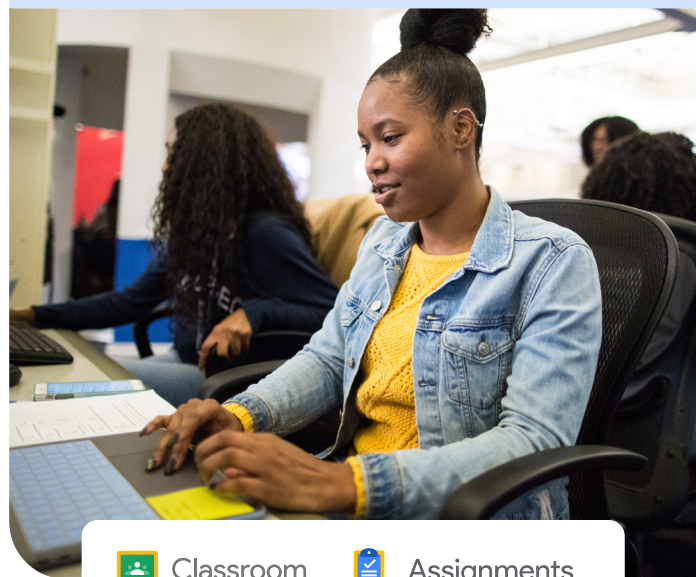

Help students turn in their best work.

Teach students how to build on outside ideas and properly incorporate them into their work.

- Help students learn how to support their ideas by scanning work for recommended citations
- Catch unintentional plagiarism before students submit work
- Guide instructors in teaching students how to cite outside sources properly

Originality reports is available in both Classroom and Assignments

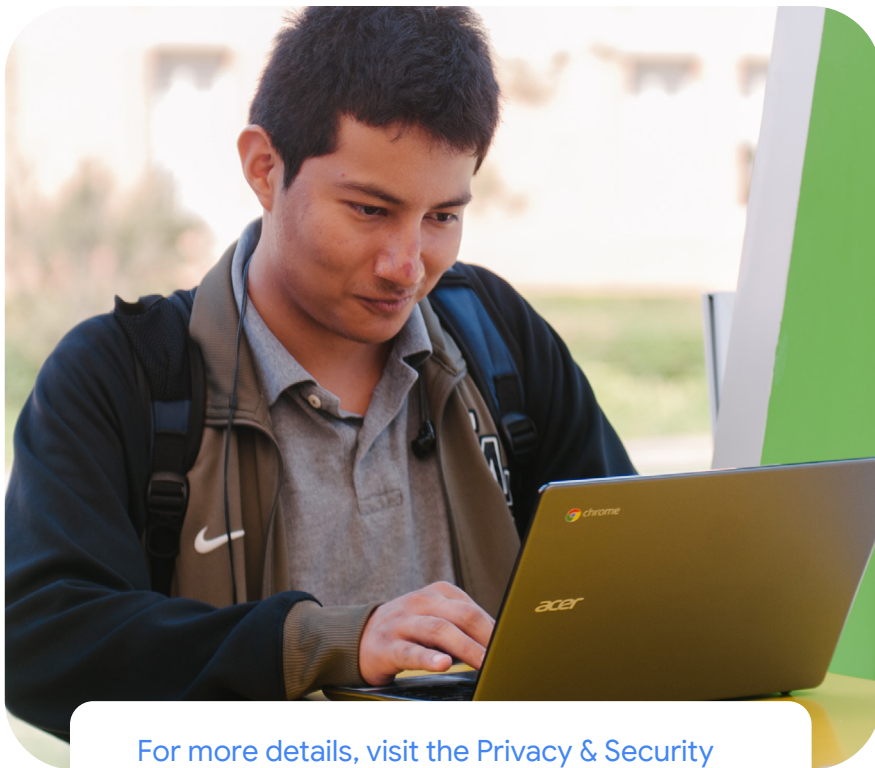

Classroom

Assignments

Your content belongs to you and your students.

With originality reports, intellectual property is protected and your school retains the content. We do not assume ownership of your data. Our responsibility is to keep it secure.

Cross-reference content from across the web.

With one search, compare student work against hundreds of billions of web pages and over 40 million books quickly and easily – right within your grading interface.

Upgrade for premium originality reports.

Enable unlimited originality reports.

With G Suite for Education, you can use up to five originality reports per class. Upgrade to G Suite Enterprise for Education and you gain access to an unlimited number of originality reports.

Get more with student-to-student content matches.

When you upgrade to G Suite Enterprise for Education, you can see student-to-student matches with your school-owned repository of past student work. Student submissions are added to your private repository when educators use originality reports in either Google Classroom or Assignments. Administrators also have the ability to add or delete from the school-owned repository.
