YouTube Playbook for Small Business

Connect to customers with compelling videos on YouTube.
Resources to help your small business manage in time of uncertainty

As communities throughout the world respond to COVID-19 (coronavirus), we know this time presents unique challenges for businesses. Visit our resource center for tips and recommendations to help you navigate this for your employees and customers.

Many small businesses are looking for ways to stay in touch with their customers while they are navigating the realities of COVID-19. Creating a free YouTube channel can help keep your customers informed about changes, address questions and deepen customer relationships during these times of uncertainty.
Here’s what we’ll cover

1. Get to know YouTube
2. Create a home for your business on YouTube
3. Create an effective video
4. Get your message to your customers
5. Reach the right people
Get to know YouTube

YouTube is the world’s largest video network and the second-largest search engine behind Google. The platform enables businesses to share their unique stories and build connections. Every day, businesses just like yours start reaching interested customers by setting up their YouTube channels and creating their own videos.

This playbook provides details on how to get started and be effective on YouTube
YouTube is the largest video network in the world

YouTube has over 2 billion monthly logged in users. These users watch 1 billion hours of video per day.¹

Video remains the world's largest pastime, and it's still growing. Globally, video will be 82% of all consumer traffic by 2021.²

Over 90% of consumers say they've discovered new products and brands on YouTube.³

YouTube keeps people watching

Users spend an average of more than an hour a day watching YouTube on mobile – and that’s growing¹

Now let's see how you can build a place for your business on YouTube so people can easily find all of your content in one place.
Getting started

Give your business a free presence on YouTube.

1. Create or sign in to your business account on YouTube

2. Select “Use a business or other name”

3. Follow prompts to Create a new channel and fill out the necessary fields with your information

Quick tip:
Make sure you’re using your business account, not your personal account. Learn more.
Build a YouTube channel

Step one: Look for inspiration

Make sure you pick a category that best matches what you’ll feature in your videos. One way to start is to look at the YouTube channels of businesses like yours.

Below are a few examples of categories you can search for:

- Auto & Vehicles
- Beauty & Fashion
- Food
- Gaming
- How-To & Style
Build a YouTube channel

**Step two:** Identify the best practices for your category

Ask yourself these questions when viewing other channels:

- What type of content is on this channel that you could leverage for your business?
- What audience does this channel aim to reach?

Quick tip:
Taking a look at the autocomplete results from YouTube searches can help you identify common themes and trends to inspire your channel.
Build a YouTube channel

Step three: Introduce your business to your viewers

- **Channel trailer:**
  Tell people about your business and channel

- **Channel sections:**
  Organize videos by product or theme and highlight featured content

Quick tip:
Add a website link and other pages to the About tab on your channel to drive more potential customers to your business.
Make your channel your own

- **Update your channel banner, icon, and name**
  Add your logo or customize your channel banner to represent your business.

**Quick tip:**
You can show a different layout to new viewers and returning subscribers.
Write helpful descriptions for your videos

- Put descriptive and searchable content first
- Add extra information and links if needed

Channel descriptions, social links, and more give your viewers extra detail about your video and your business.

Quick tip:
The first few sentences of your description will appear on YouTube search results, so make sure you have a clear call to action, also known as a CTA.
Make sure customers can find you

- Once you uploaded your video, it’s important to include searchable video titles and descriptions to make it easier for people to find your video – even if they’re not specifically looking for it.

- Well-written descriptions with the right keywords can boost views and watch time by helping your video show up in search results.

Quick tip:
Using common search terms like “how to” and “review” is a good way to connect with more customers.
Write searchable titles

A few good tips:

- Try to keep it to 45 characters or less so you show up more easily in searches
- Identify content type (for example "tutorial") so it’s clear what your video is about

- Label with brand or series if needed (for example “Tuft & Needle Presents: SHIPS IN A SMALL BOX”) to help people search for your similar videos
Add video tags to help viewers find your content

- **Keep it simple**
  Use the “tags” field during your video upload. Include keywords from your title, and a mix of both general and specific tags to thoroughly and accurately describe your video.

- **Google Trends** and **Google Ads Keyword Planner**
  These tools can help identify popular keywords and their synonyms. Including these terms can help maximize traffic from search.

**Quick tip:**
Focus on information not communicated in your title and description. Think about how YOU search on YouTube!
Let's take a look at how you can share the story of your business on YouTube with a video. Here are some tips that will help set you up for success.
Make a video you would want to watch!

When creating a video there are a few things you should keep in mind.

- Who do you want to feature in your video?
- What’s the story you want to tell?
- How can you best capture the sights and sounds for your video?
- Once you’ve shot everything, what’s the best way to edit it all together?

We’ve put together a quick guide to Making Your Video Ad that helps you get from initial concept to the final cut.

Creative best practices

Use these proven approaches to help your video ads deliver on your marketing goals.

- **A**ttract – Catch your audience’s attention from the start with a powerful hook.
- **B**rand – Introduce your brand or product and try to show it in a natural way.
- **C**onnect – Explore ways to reach your audience – for example, humor or suspense.
- **D**irect – Give viewers clear calls to action, so they know exactly what to do next.

We are here to help

We can help you get your business video-ready. Connect with Google-selected video production companies, trained in best practices for YouTube Ads.

Choosing the right partner depends on your creative needs, budget, and deadline.

Find a creative partner that’s right for you.

FIND NOW
Let’s review some interactive features that will make it easier for your customers to visit your website, watch other videos on your channel, and more.
End screens

What they are:
End screens show up during the last 5–20 seconds of your video. You can add up to four elements to promote your content, channel, and website.

Why they work:
- Longer engagement – build viewership and increase engagement by promoting your other videos and playlists.
- More connections – link to your website and drive traffic from every video.
- Increase subscribers – invite subscriptions to your channel.
- Promote another channel – if you have another channel, let your viewers know with end screens.

How to start:
Visit the Help Center for step-by-step instructions on how to set up end screens.

Quick tip:
End screens can only be created on videos that are at least 25 seconds long.
Information cards

What they are:
These enable you to make key moments of your videos actionable for viewers. Choose from different templates that work within your video’s content.

Why they work:
They’re a way to take users to the next step. For example, invite your viewers to “Learn more,” “Download the app,” “Buy now,” “Watch more,” or whatever else makes sense for your business.

How to start:
Visit the Help Center for step-by-step instructions on how to set up information cards.
5

Reach the right people

Learn how people are engaging with your videos – and how to hold their attention. Plus, see how you can get your business in front of more customers with YouTube Advertising.
Integrate your channel into your website, social, and email

This is an excellent way to get your videos in front of customers, encourage continued interaction with your brand, and help spread the story of your business through word of mouth.

An example of this would be posting your video on your company blog or including a link in a marketing email.

Quick tip:
You can also associate your official website with your YouTube channel. Learn more.
Your new audience is waiting

Start reaching even more potential customers around the block – and around the globe – with YouTube Advertising.

- **Connect with the people who matter to you**
  You don’t need to get your ad in front of everybody – just the people likely to be interested in what you have to offer.

- **Only pay when they watch your video ad**
  You only pay when someone chooses to watch at least 30 seconds or clicks on your TrueView ad.

- **See how you’re doing and what to improve**
  Get real-time insights about how people are responding to your video ads. You’ll know how you’re doing – and how to do better.
