

Google Pixel for Public Sector

Pixel 9 Series phones are the highest rated for security features^ψ and work wherever your mission takes you. Equipped with trusted Google technology and built-in threat protection, Pixel empowers public sector employees to securely connect and collaborate from virtually anywhere—even the most challenging environments.

Make your workday easier with integrated on-device Google AI

A new custom-built chip for innovative, AI-powered productivity.

- **Google Tensor G4** is Pixel's most powerful chip yet, and brings the latest in Google AI to the **Pixel 9 phones**.¹
- **Gemini Nano**: On-device AI processing ensures data security while delivering **powerful generative AI experiences, even without network connectivity**.²
- **Gemini** is your new built-in AI assistant. Chat with Gemini to start brainstorming, writing, planning, learning, and more.³
- With **Summarize**, Gemini gives you a quick overview of the written content on your screen and reading it out loud from Chrome, Google Docs, or the Google app.⁴
- With **Live Translate**, your team can securely translate text messages in real-time, fostering seamless collaboration across languages.⁵
- **Circle to Search** lets you instantly search or translate images, video, or text on your screen in two taps, without switching apps.⁶

Additional features: Hold For Me⁷, At a Glance⁸, Clear Calling⁹

Safeguard your data with built-in security features

Multiple layers of security make Pixel resilient to attacks.

- Pixel 9 Series are the **highest rated for security features**¹
- The **Google Tensor G4 security core** works with the certified **Titan M2™ security chip** to provide multiple layers of security and help keep your data safe.²
- At least **7 years of automatic Pixel Drops, OS, and security updates** protect your organization's data against constantly evolving security threats.³
- **Biometric security protections**, like Fingerprint Unlock, help ensure your devices are secure. Additional embedded security features like Factory Reset, Remote Lock, Face Unlock, and Safe Browsing offer extra protection.
- **Passkeys** offers an even more secure way to sign into apps and websites that's resistant to phishing and data breaches.
- **Pixel comes certified** with DoDIN APL, FIPS, STIG, SOC2, NIAP, NSA CSfC, and ISO 27001.15.⁴
- **Remote Management** features like Factory Reset and Remote Lock enable secure device management.

Additional features: Built in VPN by Google⁵, Google Play Protect

Quick Stats

 **83%** of decision-makers agree the primary driver for purchasing a new smartphone is business use cases.¹

 **73%** of decision-makers stated they'd be willing to pay for high-quality customer support.²

 **64%** of enterprises refresh their device catalog at least once per year.³

 **61%** of enterprises purchase devices for their company at least once per year.⁴

¹Estimated battery life based on testing using a median Pixel user battery usage profile across a mix of talk, data, standby, and use of other features. Battery testing conducted on a major US carrier network. Battery testing conducted in California in mid 2024 on pre-production hardware and software using default settings. Tests began with phones fully charged. Battery life depends upon many factors and usage of certain features will decrease battery life. Actual battery life may be lower. ²Designed to comply with dust and water protection rating IP68 under IEC standard 60529 when each device leaves the factory but the device is not water or dust proof. The accessories are not water or dust resistant. Water resistance and dust resistance are not permanent conditions and will diminish or be lost over time due to normal wear and tear, device repair, disassembly or damage. Phone is not drop/tumble proof and dropping your device may result in loss of water/dust resistance. Damage from drops, tumbles, and other external forces are not covered under warranty. Liquid damage voids the warranty. See [google.com/water](#) for details. ³Pixel will receive updates for 7 years from when the device first became available on the Google Store in the US. See [google.com/updates](#) for more information. ⁴See [google.com/updates](#) for details on when your Pixel is eligible to receive Feature Drops. Availability of some Feature Drops may vary. ⁵Audio transcription available only through Android Messages. ⁶Not available in all languages or countries. See [google.com/ai/translate](#) for details. ⁷Not available in all languages or countries. Not available on all media or apps. See [google.com/ai/translate](#) for more information. Translation may not be instantaneous. ⁸Restrictions apply. Setup required. Service included at no additional charge for the first two years after activation of devices. Available in the US. Connection and response times vary based on location, site conditions, and other factors. See [google.com/pixel/stellios](#) for details. ⁹Not available in all countries or languages. Toll-free numbers only. May not work for every business call or detect every on-hold scenario. ¹⁰Copying text to your computer requires the latest version of Chrome, and for both devices to be signed into the same Google Account. ¹¹Event reminders and travel updates require compatible email and calendar apps. Weather alerts require internet connection.

Do more of what matters, for less.

Premium features offer enterprise-grade performance at a public sector-friendly price.

- Get **premium features** including fast processing with Google Tensor G4, an all-day **Adaptive Battery**, durable design, and strong security features.^{†,‡}
- **Scheduled updates** and **Pixel Drops** mean devices get better over time, yet you keep control of your fleet and avoid costly downtime from forced updates.^{⁴,⁵}
- **Pixel 9 devices** include premium features, such as **audio message transcriptions**, **hands-free quick phrases**, and **Live Translate**.^{¶,Ⓜ,□}

Additional features: Satellite SOS[¶], Direct My Call,[‡]

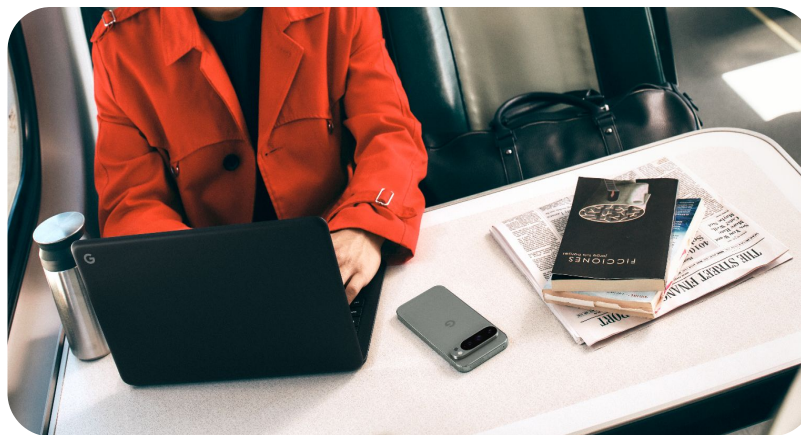

All the flexibility of Android.

Pixel offers smooth integration with existing workflows and access to required applications.

- **Designed to work well with your other compatible connected devices**, whether they're from Google or another brand.
- Pixel devices have access to apps on the Google Play Store, offering users the ability to **seamlessly integrate apps and tools** for their specific needs.
- Access your **favorite productivity apps**, from Google Calendar and Gmail to third-party tools, all in one place.

Additional features: Customized device management, management APIs, customized 3P EMM solutions, the Google ecosystem.

Note: Some features require Android Enterprise.

Use Cases

Digitize information.

Case workers can use Google Lens to help scan text or handwritten notes, then paste it in a document or send it to their computer.^⁹

Always be prepared.

Get information about the next meeting with a glance and get summaries of case notes when time is tight.^⁵

Modernizing internal processes.

Improve case management and safety inspection processes by gaining mobile access to blueprints and digitizing inspection records.
