Canada

2025 Cohort

4Point AI | [www.4point.ai]
4Point AI develops predictive AI and machine learning to accurately map thousands of kilometers around the globe. Their foundational models detect critical mineral deposits in the entire world.

Agentnoon | [www.agentnoon.com]
Agentnoon is an AI-enabled platform designed to drive organizational transformation. It helps large global enterprises visualize, model and understand the impact of workforce changes.

ConeLabs | [www.conelabs.ai]
ConeLabs AI is an engineering-grade inspection platform that leverages AI-powered 3D modelling and computer vision to assess infrastructure conditions, automate defect detection, and generate actionable reports.

ElephasCare | [www.elephascare.com]
ElephasCare offers a proactive, contactless monitoring solution for long-term care. Utilizing radar and AI, it tracks resident activities and vital signs without cameras or wearables, providing caregivers with real-time insights to optimize care, reduce workload, and address staffing shortages.

FLiiP | [www.myfliip.com]
FLiiP empowers fitness businesses to streamline operations, increase revenue, and cultivate lasting member loyalty through a comprehensive, automated gym management platform.

Happly | [www.happly.ai]
Happly AI's cutting-edge AI platform simplifies non-dilutive funding access for over 75,000 users. They streamline the matching, application, and qualification process, enabling innovators to unlock capital and fuel community economic growth.

Luxsonic | [www.luxsonic.ca]
Luxsonic addresses the global radiologist shortage and provides innovative virtual reality and AI solutions that dramatically improve radiology workflow, leading to faster diagnoses and increased radiologist productivity.

If you would like an introduction to any of the startups in the cohort please reach out to gfsa-ca-team@google.com.

2025 Cohort

MarketMind Technologies | [www.marketmind.live]
MarketMind Technologies offers Gemini-powered solutions to solve the challenges faced by public companies in attracting and managing retail investors.

Numr | [www.numrcxm.com]
Numr is an AI-powered customer experience intelligence platform that replaces traditional surveys with real-time interaction analysis. Their predictive models analyze interactions and directly correlate customer experience with revenue, empowering businesses to take proactive, revenue-boosting action.

Quanto | [www.quantobooks.com]
Quanto automates bookkeeping for accounting firms, eliminating manual data entry and streamlining financial workflows. Their AI-powered platform enhances accuracy, saves time, and allows accountants to focus on high-value advisory services.

Simmunome Inc. | [www.simmunome.com]
Simmunome offers a cutting-edge platform that utilizes mechanistic modeling combined with machine learning to simulate the efficacy and safety of drug targets, reducing late-stage failures.

Singularity Health | [www.singularity.health]
Singularity Health uses artificial intelligence to enhance patient care, streamline workflows, and improve chronic disease management through intelligent digital health solutions.

Tedy | [www.tedy.app]
Tedy.app simplifies team wellness with modern, flexible benefits. Direct, transparent pricing empowers businesses to maximize every dollar on wellness wallets, recognition, and financial perks.

Waveshaper AI | [www.waveshaper.ai]
Waveshaper AI empowers manufacturers and developers to deliver premium, real-time audio on small devices. Their machine learning platform simplifies the integration of superior audio features, eliminating complex engineering requirements.
