Become a Nest Pro to bring more value to your business.
Sign up today at g.co/nestpro

¹ Requires Google Home Premium Advanced plan (sold separately), Google Home app, Wi-Fi, and internet connection. Features subject to change; available in select countries and languages. Gemini features work independently of Gemini apps. Check responses for accuracy; results may vary.

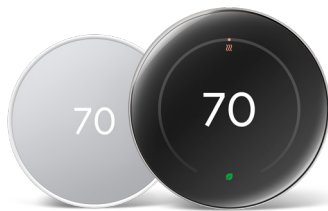

Scale your business with Google Home.

With a portfolio of devices controlled by a single app, Google Home offers an intuitive and user-friendly smart home experience that makes it simple for you to bundle products and services, open up new revenue streams for your business, and install a complete smart home solution for your customers.¹

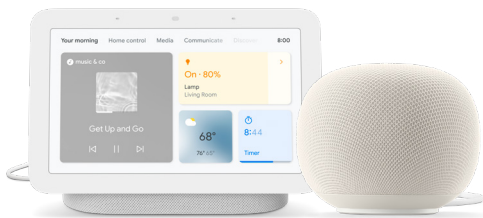

Cameras and doorbells

Help customers keep an eye on their homes, day and night. With flexible installation options, there's a Nest camera or doorbell for every home. And with 2K video and Gemini, the latest generation is the smartest, sharpest yet.^{2,3,4}

Smart thermostats

Customers can choose from two great thermostats: the iconic Nest Learning Thermostat (4th gen) or the budget-friendly Nest Thermostat. Both have HVAC System Health Monitor built in to keep pros connected to homeowners – a valuable feature in a time when many consumers are looking for maintenance and repairs to extend the life of their system.⁵

Smart speakers and displays

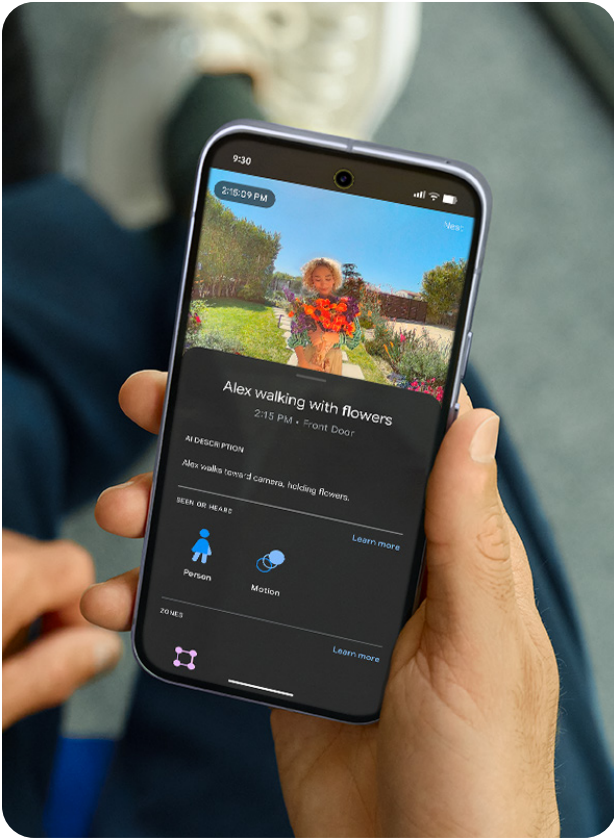

With the Google Home Speaker (coming Spring 2026) and Nest Hub, customers can get hands-free help from the Gemini for Home voice assistant and easily control compatible smart devices, like lights, locks, and thermostats.¹

Wi-Fi

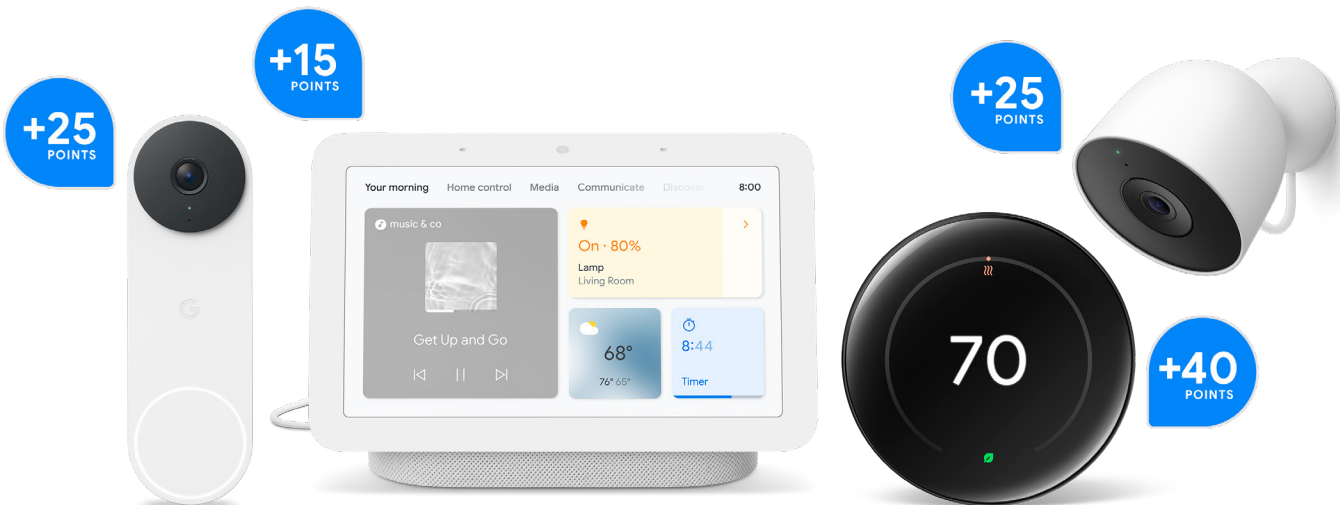

Bring super fast speeds and a reliable connection to any home with Nest Wifi Pro, our powerful mesh Wi-Fi system.⁶

¹ Compatible devices required, sold separately. ² Requires Google Home Premium Advanced plan (sold separately), Google Home app, Wi-Fi, and internet connection. Features subject to change; available in select countries and languages. Gemini features work independently of Gemini apps. Check responses for accuracy; results may vary. ³ Availability of 2K resolution is dependent on Wi-Fi and network strength, and requires connectivity speed of at least 3.3Mbps. ⁴ Compared to earlier Nest Cam models. ⁵ List of eligible HVAC systems is available at g.co/nest/hvac-monitoring. Alerts can notify users of a potential issue with an eligible HVAC system. They're meant to provide helpful information, not an endorsement, representation, or warranty of any kind about the health of an HVAC system. HVAC System Health Monitor is only available to registered Nest Pros. A person with legal signing authority for the Pro company can register for a Pro ID at g.co/nestpro. HVAC system alerts will surface the information of a Pro company if the Pro company is enrolled in HVAC System Health Monitor and a Pro ID is entered on the thermostat. ⁶ Home size, materials, and layout can affect how Wi-Fi signal travels. Larger homes or homes with thicker walls or long, narrow layouts may need extra Wifi points for full coverage. Strength and speed of signal will depend on your internet provider.

Deliver an upgraded smart home experience with Gemini.

Nest Aware is now Google Home Premium, a new subscription that makes homes smarter, safer, and more effortless with Gemini, Google's most capable AI.¹ It unlocks more home security features for Nest Cam and the Nest Doorbell and a more helpful voice assistant on Nest speakers and displays. And you can help customers create easier home automations based on the products you're installing.^{1,2}

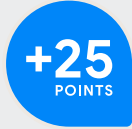

Install Nest products. Earn amazing rewards.

With Nest Pro Rewards, you can rack up points just for installing Nest products. Choose from rewards you'll love, like brand-name merchandise, trips, sporting events, and even charitable donations. Or pick Nest products to reinvest in your business.³ Enroll now at g.co/nestpro
