

# Nest Doorbell

Know more. On any door.

### Designed for any door.

It can be wired to a house chime<sup>1</sup> or installed wire-free, so you can offer a Nest Doorbell at any job.

### Know what's happening, and where.

It can tell the difference between people, packages, animals, and vehicles, and sends relevant alerts.<sup>2</sup> With Activity Zones, users can choose to get alerts only for specific areas.

### See from head to toe.

With a 3:4 ratio, a taller field of view that's great for doorsteps, and advanced HDR, customers can see clearly, day or night.

## Better together.

Customers can see who's at the door on Nest Hub, or hear visitor announcements on Nest Mini or another Nest speaker or display (all sold separately) when someone rings the doorbell. No wired chime required.

## Reliable video security.

### Go back in time.

With up to 3 hours of free event video history, customers can see what they missed. With a Nest Aware Plus subscription<sup>5</sup>, they'll get up to 60 days of event video history.<sup>2,3</sup>

### Wi-Fi problems? Not a problem.

If the Wi-Fi goes down or there's a power outage, the Nest Doorbell can automatically store up to 1 hour of recorded events in its local memory.<sup>4</sup>

Did you know?  
Customers receive an exclusive 3-year warranty with professional installation.

With a wired option and a built-in battery, it's the only model you'll need on your truck.

## Helpful accessories.

### A wedge for the perfect angle.

Help improve the viewing angle with a Wasserstein mount – offered in horizontal and vertical styles.<sup>5</sup>

### Wired power for more homes.

With the Indoor Power Adapter, you can easily wire the Nest Doorbell, even in homes with no doorbell wiring.<sup>5</sup>
