

Nest Thermostat

Easy to use. Easy to install. Easy to control.

Keeps you connected to customers.

HVAC monitoring looks out for issues with a customer's system and sends an alert if something doesn't seem right, so they can easily book a repair with their Nest Pro.¹

Easy to understand.

The Google Home app makes it simple for customers to control the thermostat and customize their own schedules.

Simple setup, no Wi-Fi required.

It's quick and easy to set up on your own device using the Google Home app – no need for the customer's Wi-Fi or account info. There's even a built-in power systems compatibility checker.

A great value.

It comes at a price customers will love – and you can deliver even more value with the pro-exclusive 3-year warranty.

Don't miss out on all the benefits of being a Nest Pro.

¹List of eligible HVAC systems is available at g.co/nest/hvac-monitoring. Alerts can notify users of a potential issue with an eligible HVAC system. They're meant to provide helpful information, not an endorsement, representation, or warranty of any kind about the health of an HVAC system. Alerts aren't intended to replace a diagnosis by a qualified HVAC professional. ²Availability of individual rewards not guaranteed. Nest Pro Rewards available to Nest Pros in the US only. See bit.ly/pro-rewards-terms for terms and conditions.
