

Chrome Enterprise Recommended Solution Overview with 8x8 Work

Streamline employee and customer experiences with a powerful collaboration platform with 8x8 Work and ChromeOS

8x8 Work is a powerful, cloud-based communications and collaboration platform that brings together telephony, video meetings, and team messaging.

8x8 Work is Chrome Enterprise Recommended, which ensures that it is optimized for ChromeOS. With this, ChromeOS users can utilize a robust, modern, and easy-to-use business communications system with best-in-class, enterprise-grade PBX features, instant messaging, video, business SMS, voicemail, auto-attendant, and number coverage in over 100 countries.

8x8 Work's instant messaging and video capabilities ensure deeper and more efficient collaboration. It also extends the value of 8x8's services and helps organizations avoid the need to purchase third-party solutions.

With industry-leading 99.999% uptime SLA, global reach, platform flexibility, and optimization for ChromeOS, you can ensure employees can communicate and collaborate with co-workers, customers, and vendors securely and confidently with 8x8 Work.

Discover the benefits

With 8x8 Work, ChromeOS users can experience:

- Integrated business communications- Eliminate switching between multiple applications.
- One-click experience- Unify phone calls, video meetings, and team messaging for a seamless collaboration experience.
- Greater flexibility- Empower your employees to stay efficient and productive using their device of choice regardless of their location.
- Expedited onboarding- Deploy and get Chrome OS users up and running faster and enjoy the benefits of simpler ongoing system management.
- Real-time visibility. Get actionable business insights using 8x8's built-in analytics that captures historical and real-time data from all customer communication interactions.
