Help every student learn how they learn best

Provide every student with individualized support and an equitable learning experience with accessibility tools that are easy to discover, set, and use.

Help all students by minimizing learning barriers
Give every student the opportunity to learn with confidence, actively participate in class, and bring their ideas to the table.

Promote student agency and independent learning
Help all students achieve their learning goals by providing them with support that meets their unique needs.

Accelerate learning with intuitive, inclusive tools
Provide students and educators with accessibility tools and features that are easy to customize and use.

“When we first saw the accessibility features in Chromebooks and Google Workspace for Education, I don’t think we knew what a huge benefit this would be for special education. We now see the benefits of letting students become personally responsible for learning, and giving them the freedom to create work.”

Chad Flexon,
Supervisor of Instruction,
Harrison Township School District
Mullica, New Jersey

~240 million children worldwide are living with a disability.
