

Dedicated offer by Google Cloud for Startups

Startups from our **Antler Residency** receive* Google Cloud credits starting at **\$25k USD** and up to **\$350k**.

The Google for Startups Cloud Program provides access to **technical training, Google AI products, and startup experts.**

Why Google Cloud?

Innovate Quickly

Streamline apps with Gemini models, AI Studio, Vertex AI, and GKE which can get you from **code to production fast**.

Cost Effective

Maximize your runway with an AI-native cloud: 80% lower AI Total Cost and 4x the inference performance per dollar.

Most Secure Cloud

Enterprise-grade trust from day one with scalable, ready-to-use tools like Vertex AI and Cloud Run with Zero-trust architecture.

Real-time Insights

Leading-edge **data analytics and AI solutions**, including BigQuery, and Looker.

Empowering Startups to build & scale fast

Ecosystem Tier:

A program built to help startups thrive

Startup Eligibility:

- ❑ Participating in your programs **in 2025 or 2026**
- ❑ **Company Age:** The startup must have been founded within the last 3 years.
- ❑ Have a valid **Google Cloud billing ID**, business domain, and matching business email
- ❑ **Cannot have received Google Cloud credits** beyond Free Trial or Start Tier \$2k USD

Startups can receive:

Credits:

Start with **\$25k USD** credits for **2 years**

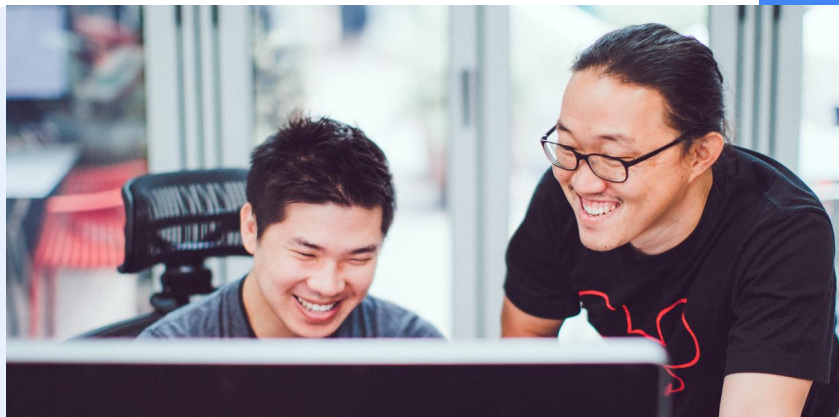

Training:

\$500 USD Google Cloud Skills Boost credits for video courses and hands-on labs

Google Workspace Business Plus for 1 year (for new signups only)

Once **startups spend 80% of credits (\$20K)**, we extend more benefits with the [Scale tier](#).
