

“I attended trade school and was an electrician; I was struggling whether to go back to college — now I’m working to inspire young people of color to embark on their journey in STEM.”

Asia

Information Technology / U.S.

“Highlight the skills you can bring to the table and shout about them. Be your own biggest cheerleader — how do you expect your potential employer to get excited about you if you can’t?”

Lumi

Digital Marketing / London

“Google value[s] all different types of opinions and ideas...and we all have the same goal: creating the best products for our users.”

Larissa

Software Engineering / Zurich

“[As an apprentice you have] a chance to learn something new every day. You will meet new people with different backgrounds and stories while working on a variety of challenges.”

Morgane

Sales and Marketing / Paris
