

CHEQ Enforce for Google Customers

CHEQ Enforce goes beyond basic consent banners by automatically blocking unauthorized tracking and enforcing privacy rules across all digital properties. With full client-side observability and real-time policy enforcement, it helps organizations stay compliant and audit-ready—without disrupting marketing performance.

Value Proposition

<https://cheq.ai/enforce/>

Why should customers choose CHEQ Enforce

- Automate and enforce consent at scale without compromise**
 Streamline consent collection and enforcement to meet global regulations. Automatically categorize third-party technologies, monitor data flows, and control the data supply chain—even as tags change. Gain enterprise-wide oversight of privacy governance with confidence.
- Detect, enforce, and monitor enterprise privacy compliance**
 Detect unauthorized data collection in real-time. Enforce privacy policies automatically. Monitor third-party vendors and data flows with enterprise scale and visibility, enabling strict data security and global regulatory compliance.

Languages and countries supported: Support in over 180 languages and 240 countries with the ability to request additional languages and/or countries as needed.

Platforms supported:

Web (incl. Mobile)

Plans & Pricing*

Pricing for CHEQ Enforce is highly competitive for companies of all sizes where the license cost is volume-based based on visitor traffic.
