

Concord for Google Customers

With a unified approach to consent management, privacy requests, and data mapping, Concord’s next-generation privacy and compliance platform helps companies build trust with people, drive company growth, and comply with the latest data privacy and AI regulations, including GDPR, CCPA/CPRA, LGPD, the EU AI Act, and many more.

Value Proposition

[Website: concord.tech](https://www.concord.tech)

Why should customers choose Concord

- **Full Next-Generation Privacy Platform:** Real compliance with regulations is more than just cookie consent. Our unified approach to consent management, privacy requests, and data mapping helps businesses fully comply with privacy laws like GDPR, CCPA, DSGVO, PDPA, DPDPA, LGPD, PIPEDA, and more.
- **Modern Consent Management:** Location and language aware cookie consent and privacy management with flexible consent tracking and logging. Our modern user experiences are easily customized for your brand via our no-code editor and deployed in minutes.
- **Advanced Automatic Detection & Blocking Engine:** Many cookie consent tools are not truly compliant or require numerous ongoing manual technical maintenance steps to stay compliant. Our best-in-class engine processes cookies, scripts, and other trackers automatically to make real compliance as easy as possible.
- **Integrated Privacy Requests & Data Mapping:** Our Unified Privacy Center experience includes streamlined and secure data privacy request forms and workflows to simplify the processing of regulation-required privacy requests/Data Subject Access Requests (DSARs). Data mapping is also available to provide a single source-of-truth for audits/reporting and for even easier privacy request handling.

Languages supported: Concord supports automatic multi-language translation in our Consent Banner and Unified Privacy Center (38+ languages and growing).

Platforms supported: Web (incl. Mobile)
