Chronicle SOAR for Service Providers

Re-envision Managed Security Operations

Chronicle's cloud-native security, orchestration, automation and response (SOAR) product enables MSSPs to compete more effectively through the development of high-value, scalable security services that address a variety of customer needs. MSSPs can tap into flexible integrations that work with customers' existing ecosystems, create proprietary playbooks that cater to customers' specific workflows, and access collaboration capabilities that bridge transparency gaps with customers to craft unique experiences that add value.

Benefits

- Automate up to **98%** of Tier 1 tasks to free up time for strategic initiatives

- Reduce analyst caseload by up to **80%**

- Speed response **10x**

Why Chronicle SOAR?

Chronicle SOAR enables MSSPs to deliver high-value security services with fewer resources, improve margins and keep customers delighted.

Differentiate in a competitive MSSP market

Leverage functionality and unparalleled flexibility for MSSPs to mature your service delivery and develop specialized service offerings that attract the attention of new customers.

Improve customer retention

Get creative with how you engage and interact with customers, and how you mature with the customer over time.
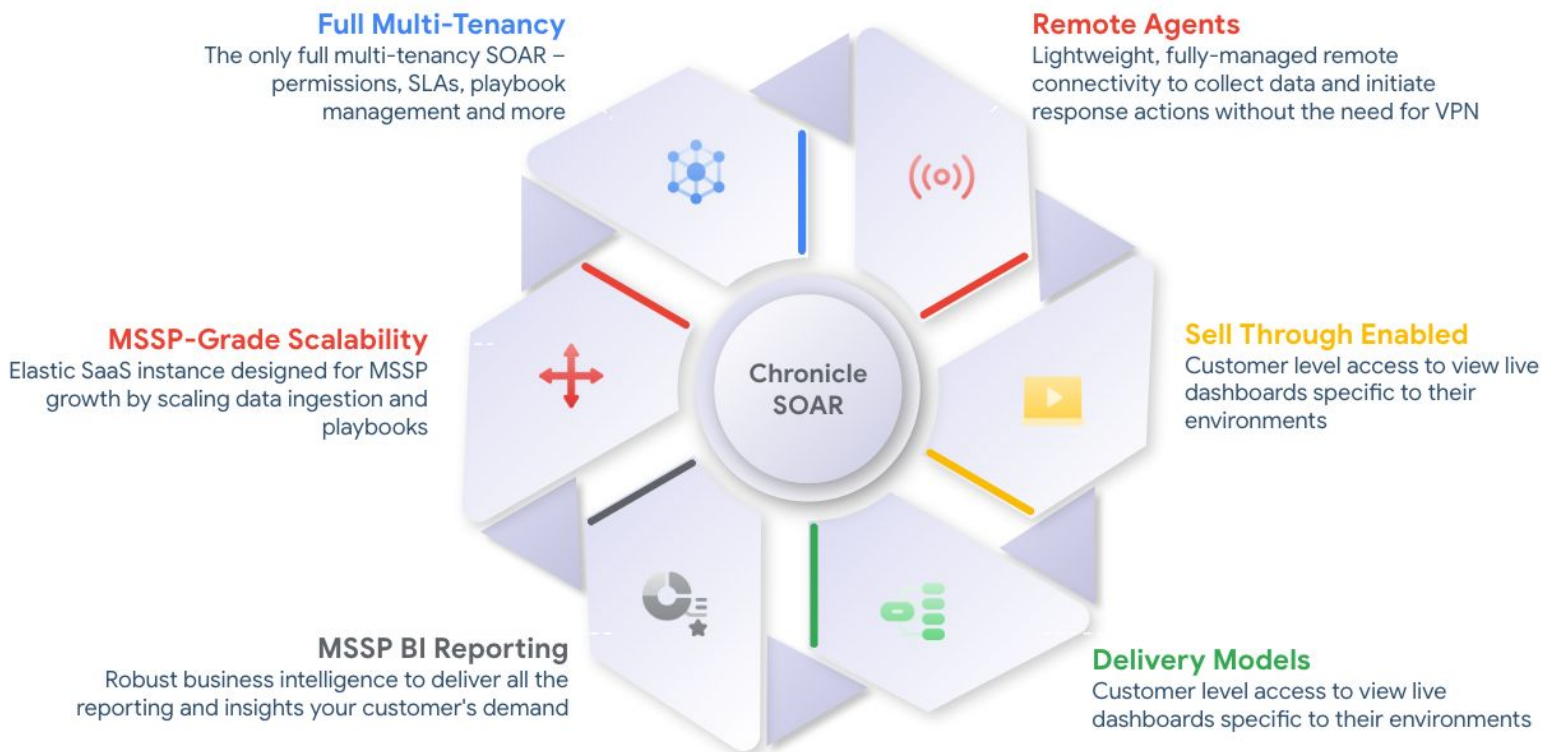

Maximize operational efficiency and grow margins

Synchronize inherent SOAR capabilities to more effectively service a growing customer base without exponentially adding staff and create repeatable and consistent processes and services.

What you get

Chronicle delivers well beyond customary SOAR offerings to help you deliver high-value security services at scale and operational efficiencies, while keeping your customers delighted and your margins healthy.

Full Multi-Tenancy
The only full multi-tenancy SOAR – permissions, SLAs, playbook management and more

Remote Agents
Lightweight, fully-managed remote connectivity to collect data and initiate response actions without the need for VPN

MSSP-Grade Scalability
Elastic SaaS instance designed for MSSP growth by scaling data ingestion and playbooks

Sell Through Enabled
Customer level access to view live dashboards specific to their environments

MSSP BI Reporting
Robust business intelligence to deliver all the reporting and insights your customer's demand

Delivery Models
Customer level access to view live dashboards specific to their environments

Chronicle SOAR

" We're able to use all the cool features within a SOAR platform like Chronicle - especially the integrations and playbooks to really go to town on new service offerings.

Chris Sedgwick, Director of Security Operations, Talion
