

Chrome Enterprise Recommended Solution Overview with directprint.io

directprint.io is a leading print management solution for Chrome OS device organizations

Print is not going away: 75% of US businesses expect print volumes to increase or plateau through 2021. Controlling & securing print remains a challenge.

Consolidating print management is a key step to operational efficiency and security.

85% of businesses report that they plan to, or already have benefited from moving print management to the Cloud.

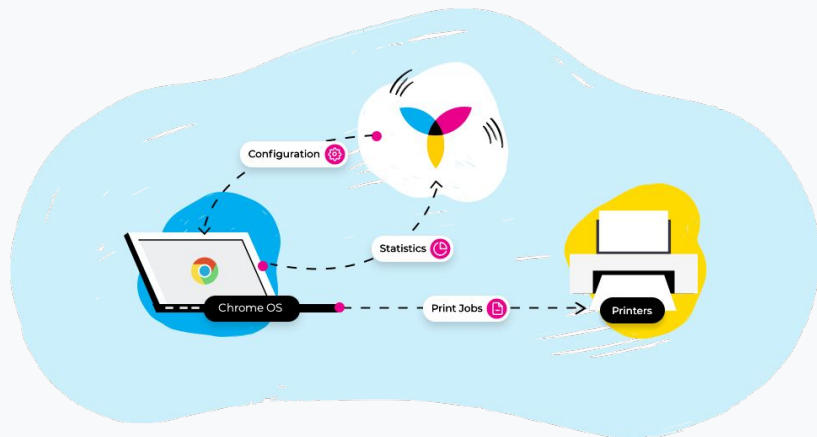

Thanks to **directprint.io's** unique seamless integration with **Chrome Enterprise**, admins enjoy frictionless deployment and robust, secure local network printing.

With support for Chrome OS devices, directprint.io is an ideal migration path away from Windows print servers to a server-less print management infrastructure.

Discover the benefits
