Google Workspace for Education

Make every minute of learning count

Education Fundamentals offers the essential, no-cost tools your institution needs every day to foster collaborative learning, seamless communication, and enhanced productivity. This comprehensive and secure suite includes access to cutting-edge AI tools – like Gemini for Education, NotebookLM, Gemini in Classroom, Gemini in Gmail, and Google Workspace Studio – at no cost.

Foster collaboration

- **Collaborate in real time** with Google Docs, Sheets, and Slides using comments and smart canvas features
- **Create user-friendly, collaborative videos** with Google Vids, opening new avenues for student projects and teacher explanations
- **Communicate with learners**, educators, guardians, and administrators from anywhere with integrated tools like Google Meet, Gmail, Chat, and Calendar
- **Join virtual meetings** directly from a Google Calendar event, email invite, Gmail, Docs, Sheets, Slides, or Google Classroom
- Enable an **inclusive learning** environment with accessibility settings that fit each student's unique learning style
- Provide students with tools optimized for low-bandwidth and **offline work**

Promote productivity

- **Generate content and resources with over 30 no-cost AI tools** from a central destination in Google Classroom, leveraging Gemini to kick-start lessons, brainstorm ideas, and differentiate content for students
- **Enable teacher-led, interactive AI experiences** for students with NotebookLM and Gems, grounded in class materials and assignable directly from within Classroom
- **Save time with Classroom and Assignments** by easily creating courses, organizing classwork, and distributing tests
- Keep **grading and feedback consistent and transparent** with rubrics and a comment bank
- **Guide critical thinking** and academic integrity with originality reports
- **Automate repetitive administrative tasks** – from organizing Drive files to labeling priority emails to gathering professional learning community meeting notes – by deploying custom AI agents with **Google Workspace Studio**

Strengthen digital security

- **Ensure robust privacy and security protections** that support global education compliance requirements
- **Provide an ad-free environment** across Google Workspace for Education apps
- **Block 99.9% of spam**, phishing attempts, and malware in Gmail
- **Maintain institutional data ownership** with full admin control and visibility to manage their data
- **View potential security threats** against your domain in the alert center
- **Prevent unsafe practices** with log events of user and administrator activity
- Get **enterprise-grade data protection** when using the Gemini app
