

Google Supplier Core

Google Account Sign-In Process Guide

Google Account Setup Methods

You can set up your Google Account using one of two methods:

[Google Account Management](#)

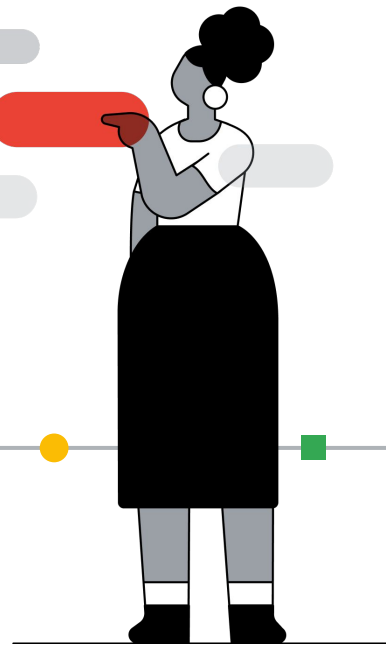

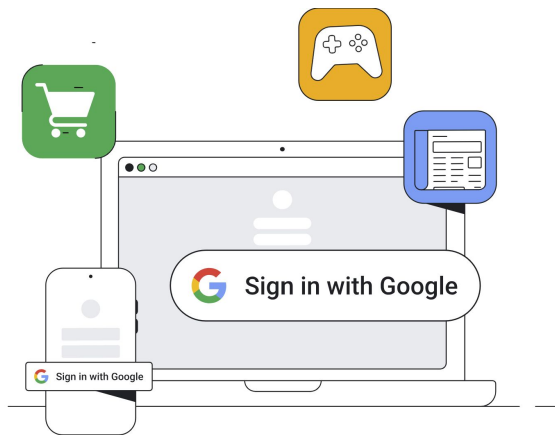

This standard method allows you to create and link your corporate account directly through the Google Account Management website.

[Google Supplier Core Sign-In](#)

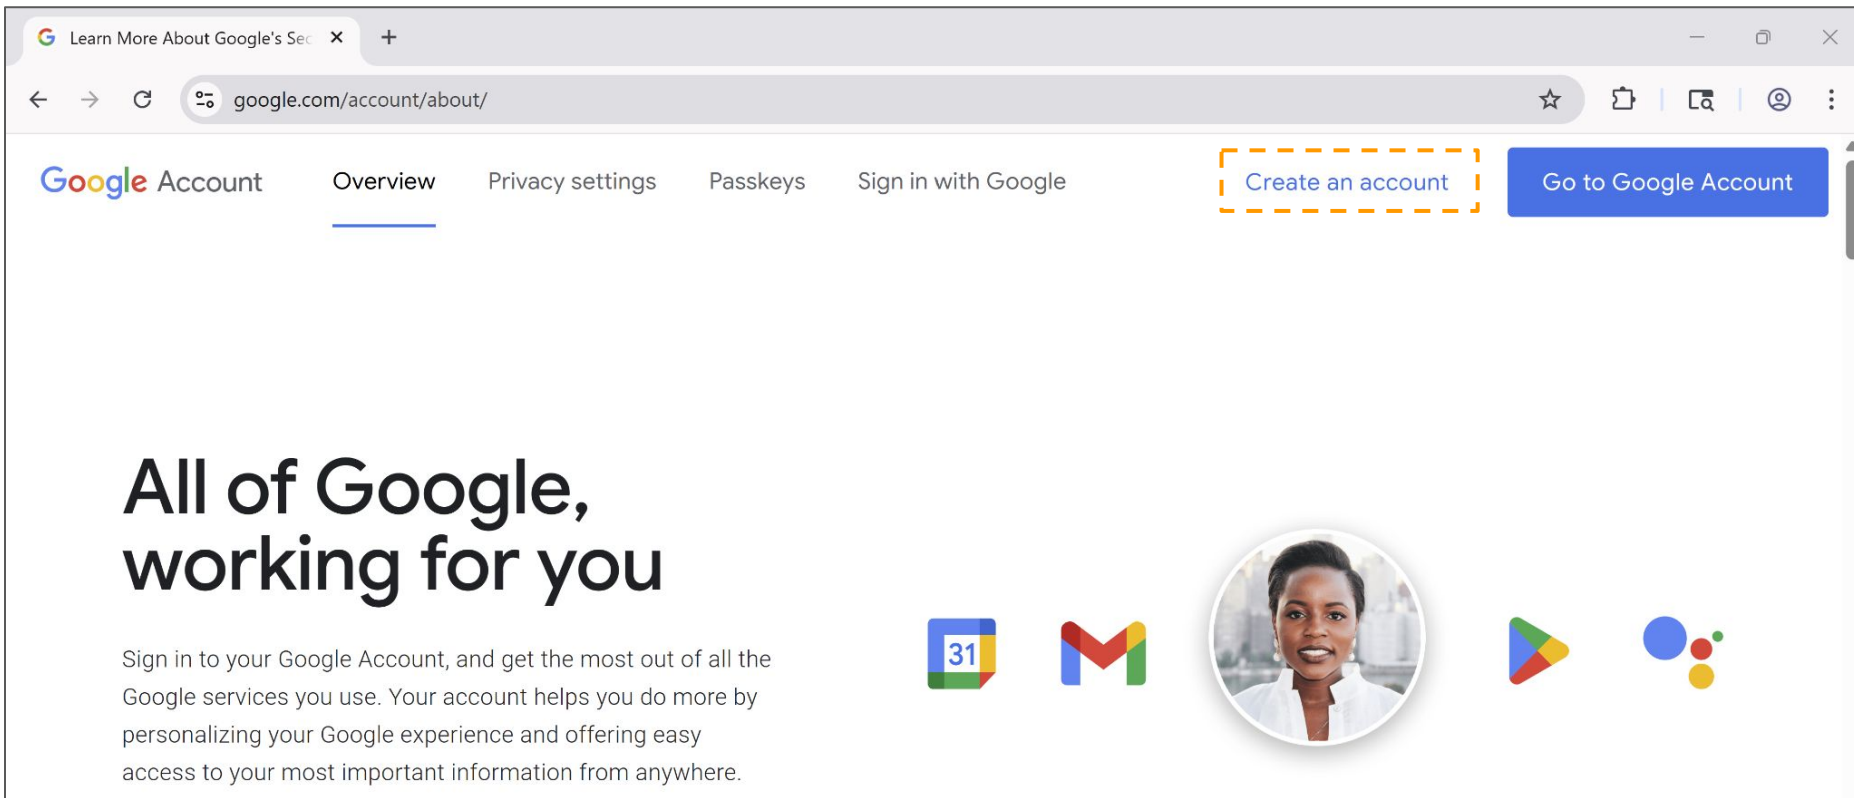

This integrated method allows you to begin the account setup process directly from the Supplier Core after receiving an invitation.

Google Account Management

Step 1: Google Account Website

Open the [Google Account Management](#) portal and click '**Create an account**' in the top-right corner.

Step 2: Enter Your Personal Details

Enter your **First name** and **Last name** (optional), then click **Next**.

Create a Google Account

Enter your name

Step 4.1: Corporate Email Already Activated in Google Account

If you see the error message, "**That username is taken. Try another**", it means your corporate email is already linked to a Google Account. You should cancel the account creation process and **sign in directly** with that email in **Supplier Core**.

Note: You can ignore this step and proceed to the **next slide** if you do not encounter this error.

The screenshot shows the Google Account creation interface. At the top left is the Google logo. Below it, the heading "Use your existing email" is displayed. Under the heading, the text "Enter the email address you want to use for your Google Account" is shown. To the right, there is an "Email address" input field. The field contains the text "a[REDACTED].com". Below the input field, a red error message is displayed: "That username is taken. Try another." Below the error message, there is a blue link that says "Get a Gmail address instead". At the bottom right of the form, there is a blue "Next" button. At the bottom left of the page, there is a language selector showing "English (United States)". At the bottom right of the page, there are links for "Help", "Privacy", and "Terms".

Step 5: Verification Of Your Corporate Email ID

Enter the verification **code** that was sent to your corporate email address, then click **Next**.

Verify your email address

Enter the code we sent to **[redacted]**. Check your spam folder if you don't see an email.

Enter code

Step 7: Verification Of Phone Number

To keep your account safe, please register your **phone number**. Google will need to verify your phone number by sending an SMS message.

Verify some info before creating an account

Google needs to verify some info about your device or phone number before you can continue. This helps keep you and others safe online by preventing abuse from computer programs or bots.

Scan the QR code with your phone

Open your Camera app, scan the code, and tap the link. Then, follow a few more steps on your phone to complete verification. You'll need to switch back to this device to continue.

Scanning the QR code won't associate your device or phone number with the new Google Account.

English (United States) ▼HelpPrivacyTerms

NOTE: This verification is only required in certain cases and the process varies from country to country.

Step 8: Review Your Corporate Email ID

Please review your **corporate email address**, as it will be used for **Supplier Core Login**. Then click **Next**.

Review your account info

You can use this email address to sign in later

English (United States) ▼

[Terms](#)

Step 9: Review Policies and Agreements

After you've read all the **privacy regulations, policies, and security agreements**, click 'I agree' to continue with your corporate email Google Account.

Privacy and Terms

To create a Google Account, you'll need to agree to the [Terms of Service](#) below.

In addition, when you create an account, we process your information as described in our [Privacy Policy](#), including these key points:

Data we process when you use Google

- When you set up a Google Account, we store information you give us like your name, email address, and telephone number.
- When you use Google services to do things like write a message in Gmail or comment on a YouTube video, we store the information you create.
- When you search for a restaurant on Google Maps or watch a video on YouTube, for example, we process information about that activity – including information like the video you watched, device IDs, IP addresses, cookie data, and location.
- We also process the kinds of information described above when you use apps or sites that use Google services like ads, Analytics, and the YouTube video player.

Google Supplier Core Sign-In

Step 1: Open Supplier Core Website

Please check your inbox and look for an email from '**supplier-core-noreply@google.com**' regarding access to the **Google Supplier Core Website**.

Inside the email, you'll find a button to open the website. Once you click it, you will be redirected to the Supplier Core Landing Page, where you can create / sign in with your Google Account.

After logging in, click the "**Sign In**" button on the top right to proceed with your corporate email account.

Step 2: Account Sign-In Setup

On the Account Sign-In page, click '**Create account**' at the bottom right and select '**For my personal use**' option.

The screenshot shows the Google Account Sign-In page. The Google logo is at the top left. Below it, the text "Sign in" is displayed in a large font. Underneath, a message states: "with your Google Account. This account will be available to other Google apps in the browser." To the right, there is a text input field labeled "Email or phone" with a vertical cursor. Below the input field is a link that says "Forgot email?". Further down, a line of text reads: "Not your computer? Use Guest mode to sign in privately. [Learn more](#)". Below this is a selection menu with three options: "For my personal use", "For my child", and "For work or my business". The "For my personal use" option is highlighted with a dashed orange border. To the right of this menu is a "Create account" button, also highlighted with a dashed orange border. To the right of the "Create account" button is a blue "Next" button. At the bottom left, there is a language selector showing "English (United States)" with a dropdown arrow. At the bottom right, there are links for "Help", "Privacy", and "Terms".
