

Connecting families and educators for lifelong learning

Google for Education fosters lifelong learning with secure tools that “just work” to help educators, students, and families connect and collaborate with confidence. Students build responsible technology habits using familiar Google Workspace and Chrome OS tools that grow with them. The same tools let families and educators coordinate instruction and help students remain focused, engaged, and challenged.

Useful resources to help families support their child's learning.

[Tech Toolkit for Families and Guardians](#) - presenting an overview of school technologies with links to videos, an FAQ, a glossary, and best practices.

[Guardian's Guides to Google Tools](#) - offering links to reference guides for Google for Education tools designed to support student learning.

[Video series for families and guardians](#) - covering tech tools and features used in school to better support learning outside the classroom.

[Teach from Anywhere](#) - providing an online repository of guides, tutorials, and tips to help educators and families effectively teach from anywhere.

[Best Practices for Family Engagement](#) - navigating technologies used in the classroom and encouraging digital wellbeing.

[Digital Wellbeing video series](#) - helping families find the right balance for work, learning, and technology.

Make the most of Chromebooks, wherever learning happens.

With Chromebooks, students can easily sign in to school-issued Google Accounts from [personal](#) or [school-managed](#) devices. Use these resources to help tailor a Chromebook to meet different family and student needs.

- [Guardian's Guides to Chromebook](#) - explaining what Chromebook is and how it's used for learning inside and outside the classroom
- [Family Link Support](#) - showing how to sync school Google Accounts to Family Link to access school tools and classwork from home, with familiar Family Link parental controls and tools still in place.

Keeping kids safe

Google for Education is committed to meeting the most rigorous education standards for security and privacy to ensure learners, educators, and families are kept safe, and does so by adhering to guidelines established by:

- Family Educational Rights and Privacy Act (FERPA)
- Children's Online Privacy Protection Act (COPPA)
- Student Privacy Pledge introduced by the Future of Privacy Forum (FPF)
- Software & Information Industry Association (SIIA)
