

FINMA - Circular 2018/3

Google Workspace Mapping

This document is designed to help banks, securities dealers and insurance companies supervised by the Swiss Financial Market Supervisory Authority FINMA (“**regulated entity**”) to consider [FINMA Circular 2018/3 “Outsourcing - banks and insurers”](#) (the “**framework**”) in the context of Google Workspace and the Google Cloud Financial Services Contract.

We focus on section V, “Requirements for outsourcing companies”, which covers the following requirements of the framework: A. Inventory of outsourced functions, B. Selection, instruction and monitoring of the service provider, C. Outsourcing within a group or conglomerate, D. Responsibility, E. Security, F. Audit and supervision, G. Outsourcing to another country and H. Agreement. For each paragraph, we provide commentary to help you understand how you can address the requirements using the Google Cloud services and the Google Cloud Financial Services Contract.

#	Framework reference	Google Cloud commentary	Google Cloud Financial Services Contract reference
A. Inventory of outsourced functions			
1	14. An inventory of outsourced functions must be drawn up and kept up to date at all times. It must contain a description of the outsourced function and indicate the service provider (including subcontractors), the service recipient and the unit responsible within the outsourcing company (see Margin no. 20).	<p><u>Inventory</u></p> <p>This is a customer consideration.</p> <p><u>Subcontractors</u></p> <p>Google will provide information about Google Subcontractors, refer to Row 20 for more information on subcontractors.</p>	N/A N/A
2	15. Insurance companies keep this inventory in conjunction with business plan form J.	This is a customer consideration.	N/A
B. Selection, instruction and monitoring of the service provider			
3	16. The service specifications must be agreed in line with the aims of the outsourcing and documented before the agreement is signed. This includes conducting a risk analysis that takes account of the main economic and operational considerations as well as the associated risks and opportunities.	<p><u>Service specification</u></p> <p>The Google Workspace services are described on our services summary page.</p> <p><u>Risk analysis</u></p> <p>From an operational perspective, Google Workspace is controlled by the customer. You decide which services to use, how to use them and for what purpose. Therefore you stay in control of the relevant activities. Customers can configure Google Workspace to avoid undue operational risk.</p> <p>To assist with your risk assessment more information about Google is provided in Row 4 and information on Google’s security practices are provided in Row 11.</p>	Definitions N/A
4	17. The service provider must be chosen with due regard to, and subject to checks of, its professional capabilities as well as its financial and human resources. Where multiple functions are outsourced to the same service provider, the concentration of risk must be taken into account.	<p>Google recognizes that you need to conduct due diligence and perform a risk assessment before deciding to use our services. To assist you, we’ve provided information for each of the areas you need to consider below.</p> <p><u>Professional Capabilities</u></p>	N/A

FINMA Circular 2018/3

		<ul style="list-style-type: none"> Qualifications and competencies: Google Workspace has been named as a leader in several reports by third party industry analysts. You can read these on our Analyst Reports page. Customer references: Information about our referenceable customers (including in the financial services sector) is available on our Google Workspace Customer page. Information about Google Cloud's service delivery capability and effectiveness is available on our Choosing Google Cloud page. <p><u>Financial and human resources</u></p> <ul style="list-style-type: none"> You can review Google's financial status and audited financial statements on Alphabet's Investor Relations page. Principals: Information about Google Cloud's leadership team is available on our Media Resources page. <p><u>Concentration risk</u></p> <p>Refer to Row 5 for more information on the substitutability of our services.</p>	
5	18. Furthermore, the eventuality of a change of service provider and the possible consequences of such a change must be considered when deciding to outsource and selecting the service provider. The service provider must offer a guarantee of permanent service provision. Provision must be made for insourcing the outsourced function or transferring it to another service provider in an orderly manner.	<p><u>Change of service provider/insourcing</u></p> <p>Google recognizes that regulated entities need sufficient time to exit our services (including to transfer services to the regulated entity or another service provider). To help regulated entities achieve this, upon request, Google will continue to provide the services for 12 months beyond the expiry or termination of the contract.</p> <p>Google will enable you to access and export your data throughout the duration of our contract and the transition term. More information is available on our Google Account help page.</p> <p>In addition, Data Export is a feature that makes it easy to export and download a copy of your data securely from our Services.</p>	<p>Transition Term</p> <p>Transition Assistance</p> <p>Data Export (Data Processing Amendment)</p>
6	19. The duties of the company and the service provider must be contractually agreed and delimited, in particular with regard to interfaces and responsibilities.	The rights and responsibilities of the parties (and the interfaces between them) are set out in the Google Cloud Financial Services Contract.	N/A

FINMA Circular 2018/3

7	<p>20. The outsourced function must be integrated into the company's internal control system. The main risks associated with the outsourcing must be systematically identified, monitored, quantified and controlled. A unit within the company must be named as responsible for monitoring and controlling the service provider. The latter's services must be monitored and assessed on an ongoing basis so that any necessary measures can be taken promptly.</p>	<p><u>Integration</u></p> <p>There are a number of ways to integrate our services with your systems.</p> <ul style="list-style-type: none"> • Google Workspace Marketplace API allows you to access a repository of Google Workspace APIs in a centralised location for easy integration. • Google Workspace also enables you to integrate with reliable third-party business solutions. More information is available on our Partner Integration page. <p><u>Monitoring</u></p> <p>You can monitor Google's performance of the Services (including the SLAs) on an ongoing basis using the functionality of the Services.</p> <p>For example:</p> <ul style="list-style-type: none"> • The Status Dashboard provides status information on the Services. • Admin Console Reports allow you to examine potential security risks, measure user collaboration, track who signs in and when, analyze administrator activity, and much more. • Access Transparency is a feature that enables you to review logs of actions taken by Google personnel regarding your user content. Log entries include: the affected resource, the time of action, the reason for the action (e.g. the case number associated with the support request); and data about who is acting on data (e.g. the Google personnel's location) <p><u>Incident response</u></p> <p>Google will make information about developments that materially impact Google's ability to perform the Services in accordance with the SLAs available to you. More information is available on our Google Workspace dashboard page.</p>	<p>N/A</p> <p>Ongoing Performance Monitoring</p> <p>Significant Developments</p>

FINMA Circular 2018/3

		In addition, Google will notify you of data incidents promptly and without undue delay. More information on Google's data incident response process is available in our Data incident response whitepaper .	Data Incidents (Data Processing Amendment)
8	21. To this end, the company must ensure that its agreement with the service provider grants it the necessary rights of instruction and control.	<p><u>Control</u></p> <p>You decide which services to use, how to use them and for what purpose. Therefore you stay in control of the Services.</p> <p><u>Instructions</u></p> <p>You can provide Google instructions about your data and Google will comply with those instructions.</p> <p>Regulated entities can use the following functionality to control the Services:</p> <ul style="list-style-type: none"> • Admin Console: A web-based graphical user interface that customers can use to manage their Google Workspace resources. 	<p>N/A</p> <p>Google's Compliance with Instructions (Data Processing Amendment)</p> <p>Instructions</p>
C. Outsourcing within a group or conglomerate			
9	22. With regard to the requirements set out in Margin nos. 16–21 and 32–35, relationships within the group or conglomerate may be considered to the extent that the risks typically associated with outsourcing are demonstrably absent or certain requirements are not relevant or are met in some other way.	This is a customer consideration.	N/A
D. Responsibility			
10	23. The company remains accountable to FINMA in the same way as it would if it performed the outsourced function itself. Proper business conduct must be assured at all times.	This is a customer consideration.	N/A
E. Security			
11	24. Where security-relevant functions are outsourced (particularly in information technology), the company and the service provider must contractually agree security requirements. The company must monitor compliance with these requirements.	<p>The security of a cloud service consists of two key elements:</p> <p><u>Security of Google's infrastructure</u></p>	<p>Confidentiality</p> <p>Data Security; Security Measures (Data Processing Amendment)</p>

FINMA Circular 2018/3

		<p>Although we want to offer you as much choice as possible when it comes to your data, the security of your data is of paramount importance to Google and we take the following proactive steps to assist you:</p> <ul style="list-style-type: none"> • Encryption at rest. Google encrypts certain data while it is stored at rest on a disk (including solid-state drives) or backup media. Even if an attacker or someone with physical access obtains the storage equipment containing your data, they won't be able to read it because they don't have the necessary encryption keys. • Encryption in transit. Google encrypts all data while it is "in transit"--traveling over the Internet and across the Google network between data centers. Should an attacker intercept such transmissions, they will only be able to capture encrypted data, at one or more network layers when data moves outside physical boundaries not controlled by Google or on behalf of Google. <p>(b) <u>Security products</u></p> <p>In addition to the other tools and practices available to you outside Google, you can choose to use tools provided by Google to enhance and monitor the security of your data. Information on Google's security products is available on our Cloud Security Products page.</p> <p>(c) <u>Security resources</u></p> <p>Google also publishes guidance on:</p> <ul style="list-style-type: none"> • Security best practices • Security use cases 	
12	25. The company and the service provider must draw up a security framework to ensure that the outsourced function can continue to be performed in an emergency. In doing so, the company must apply the same degree of care and attention as it would if it performed the outsourced function itself.	<p>Google will implement a business continuity plan for the Services, review and test it at least annually and ensure it remains current with industry standards. Regulated entities can review our plan and testing results.</p> <p>More information on the reliability of the Services is available on our Google Cloud Help page.</p>	Business Continuity and Disaster Recovery
F. Audit and supervision			
13	26. The company, its audit firm and FINMA must be able to verify the service provider's compliance with supervisory regulations. They must have the	<p>Google recognizes that regulated entities must be able to audit our services effectively. Google grants audit, access and information rights to regulated entities and supervisory</p>	Regulator Information, Audit and Access Customer Information, Audit and Access

FINMA Circular 2018/3

#	Framework reference	Google Cloud commentary	Google Cloud Financial Services Contract reference
	contractual right to inspect and audit all information relating to the outsourced function at any time without restriction.	authorities, and both their appointees. Regulated entities may access their data on the services at any time and may provide their supervisory authority with access.	
14	27. Auditing may be delegated to the service provider's auditors if these are adequately qualified. Where this is done, the company's audit firm may use the findings of the service provider's auditors for its audit.	Refer to Row 11 for more information on the audit reports Google provides.	N/A
15	28. The outsourcing of a function must not make supervision by FINMA more difficult, in particular if the function is outsourced to another country.	Nothing in our contract is intended to limit or impede a regulated entity's or the supervisory authority's ability to audit our services effectively. Refer to Row 13 for more information on the audit, access and information rights Google grants to supervisory authorities. These rights apply regardless of the service location.	Enabling Customer Compliance
16	29. If the service provider is not supervised by FINMA, it must enter into a contractual obligation with the company to provide FINMA with all the information and documentation concerning the outsourced functions, which are necessary for FINMA's supervisory activities. If auditing is delegated to the service provider's auditors, their report must be supplied, on request, to FINMA as well as to the outsourcing company's internal auditors and audit firm.	Refer to Row 13 for more information on the information available to supervisory authorities. Refer to Row 11 for more information on the audit reports Google provides.	N/A
G. Outsourcing to another country			
17	30. Outsourcing to another country is admissible if the company can expressly guarantee that it, its audit firm and FINMA can assert and enforce their right to inspect and audit information.	Refer to Row 13 for more information on the audit, access and information rights Google grants to regulated entities, supervisory authorities and both their auditors. These rights apply regardless of the service location.	N/A
18	31. The possibility of restructuring or resolving the company in Switzerland must be assured. Access to the information required for this purpose must be possible in Switzerland at all times.	Regulated entities may access their data on the services at any time in Switzerland or any other location. .	Customer Information, Audit and Access
H. Agreement			
19	32. A written outsourcing agreement must be signed. In addition to naming the parties and describing the function, this agreement must also contain the following as a minimum (Margin nos. 33–34):	The rights and responsibilities of the parties are set out in the Google Cloud Financial Services Contract.	N/A
20	33. The company must ensure that it is informed about the use or replacement of subcontractors for significant functions at an early stage and has the possibility of terminating the outsourcing in an orderly manner in accordance	<u>Changing subcontractors</u>	Google Subcontractors

FINMA Circular 2018/3

Google Workspace Mapping

	with Margin no. 18.1. Where subcontractors are used, they must also be bound by the obligations and guarantees on the part of the service provider that are necessary to comply with this circular.	<p>To enable regulated entities to retain oversight of any subcontracting and provide choices about the services regulated entities use, Google will:</p> <ul style="list-style-type: none">• provide information about our subcontractors;• provide advance notice of changes to our subcontractors; and• give regulated entities the ability to terminate if they have concerns about a new subcontractor. <p><u>Subcontractor performance</u></p> <p>Google will oversee the performance of all subcontracted obligations and ensure our subcontractors comply with our contract with you.</p> <p>In particular, we recognize that subcontracting must not reduce the regulated entity's ability to oversee the service or the supervisory authority's ability to supervise the regulated entity. To preserve this, Google will ensure our subcontractors comply with the information, audit and access rights we provide to regulated entities and supervisory authorities.</p>	
21	34. The agreement must include measures to ensure implementation of the requirements set out in this circular, in particular in Margin nos. 21, 24, 26, 29, 30 and 31.	Refer to Rows: 8, 11, 13, 16, 17 and 18 for more information on the implementation of requirements set out in Circular 2018/3.	N/A
22	35. The company must specify the internal approval procedures for outsourcing projects as well as the responsibilities for signing outsourcing agreements.	This is a customer consideration.	N/A
