

FISC Security Guidelines 9th Edition (revised March 2020)

Google Cloud Mapping

This document is designed to help financial institutions supervised by the Financial Services Agency of Japan (“**regulated entity**”) to consider the FISC Security Guidelines on Computer Systems for Financial Institutions 9th edition (revised March 2020) (“**framework**”) in the context of Google Cloud Platform (“**GCP**”) and the Google Cloud Financial Services Contract.

In this document, we focus on Guideline 21 about contract requirements. For each paragraph, we provide commentary to help you understand how you can address the requirements using the Google Cloud services and the Google Cloud Financial Services Contract. Regulated entities should use the table below together with the 9th edition (revised March 2020) of the framework [available from FISC](#).

If you would like to understand how our control environment aligns with the FISC Security Guideline more broadly, you can request the Google Cloud FISC handbook via your Google Cloud account representative.
