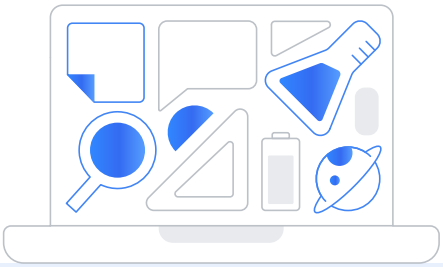
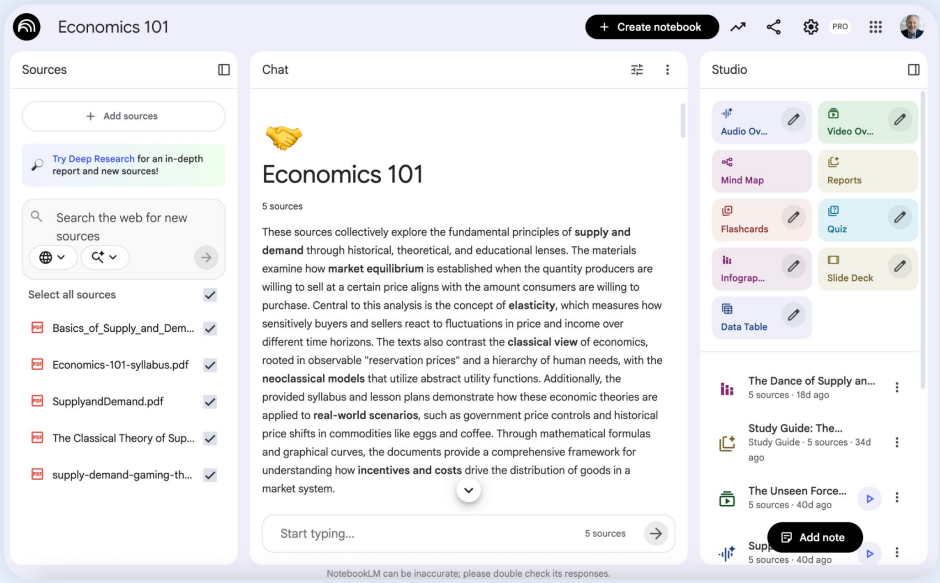
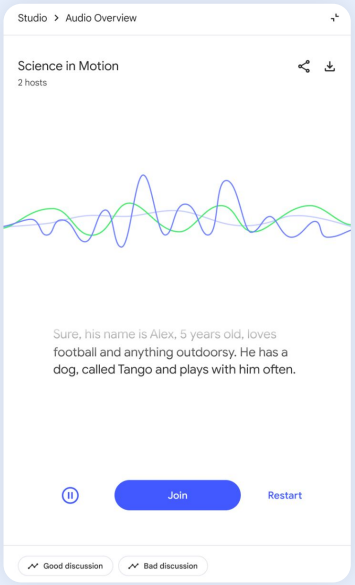
Google for Education | Gemini Notebook

Understand anything with Gemini Notebook

Meet your personal AI-powered research and thinking partner, grounded only in the information you provide.







Google Workspace for Education users of all ages have access to Gemini Notebook with enterprise-grade data protection – free of charge

Turn your sources into helpful study aids like flashcards and quizzes

Upload sources like class materials, textbook chapters, or lecture notes to instantly generate interactive flashcards, practice quizzes, and study guides, with the ability to tailor them to each student's needs.

Learn on the go with Audio and Video Overviews

Convert documents, slides, and charts into interactive media. Turn your sources into audio discussions led by two AI hosts, where you can ask them to explain a concept differently, or short explainer videos with narration.

Get helpful responses with in-line citations

Notebook cites its sources by providing links to the resources you uploaded – all with in-line citations to ensure accuracy.

Visualize information with infographics and slides

Transform your dense source information into engaging infographics or polished PDF slide decks – perfect formats to help you understand complex concepts and share with others.

See connections across sources with Mind Maps

Visually summarize your sources, showing main topics and their related ideas as a branching diagram. You can tailor Mind Maps to focus on specific topics, sources, or concepts using a simple prompt.

Try Gemini Notebook

Google for Education | Gemini Notebook

Private and secure

Data you enter into Gemini Notebook, including your source uploads, queries, and responses, are not human reviewed or used to train AI models.

Explore ways education communities are using Gemini Notebook

Education leader

- ✓ Reinvent onboarding by uploading standards, codes of conduct, and more to a notebook where new faculty and staff can ask questions and get immediate answers with in-line citations for your sources
- ✓ Provide students with new ways of learning using Audio Overviews and Video Overviews to interact with learning material

Educator

- ✓ Help prepare students for an exam by asking Gemini Notebook to create a study guide based on the material you upload
- ✓ Share your notebook with students and view how they're engaging with it

Student

- ✓ Study on the go by creating an Audio Overview or Video Overview of your lecture notes in one click
- ✓ Prepare for an exam by asking for sample discussion questions or a practice quiz based on your uploaded class lecture recording

Researcher

- ✓ Organize and interact with robust data and resources in new ways. Upload your research and Gemini Notebook can quickly summarize videos, slides, charts, PDFs and more – and share insights grounded in your sources.

Get the most out of Gemini Notebook with additional capabilities

Upgrading to Google AI Pro for Education provides expanded access to premium models and features in Gemini Notebook.

	Education Fundamentals (Free of charge)	Education Plus (Paid)	Google AI Pro for Education (Paid)
Chat with AI grounded only in your sources, with citations	50 chat queries/day 50 sources per Notebook	200 chat queries/day 100 sources per Notebook	500 chat queries/day 300 sources per Notebook
Create more engaging content with more Audio and Video Overviews	3 Audio Overviews/day 3 Video Overviews/day	6 Audio Overviews/day 6 Video Overviews/day	20 Audio Overviews/day 20 Video Overviews/day
