Google Workspace with Gemini

Launch	Product/feature description	Edition	Availability*
Premium features			
Prioritize your day using AI Inbox in Gmail	Transform your email into a personalized briefing that highlights urgent messages – like student inquiries or department updates – so critical communications don't get lost in the noise. Learn more	Google AI Pro for Education	Will be available globally (in English) in the coming months, 18+
Turn information into answers with AI Overviews in Gmail	Ask your inbox questions to instantly retrieve details on student cases, grant deadlines, or committee threads without digging through archives. Learn more	Google AI Pro for Education	Will be available globally (in English) in the coming months, 18+
Polish every communication with Proofread in Gmail	Ensure your emails to students, colleagues, and external partners are error-free with advanced checks for grammar, tone, and style before you hit send. Learn more	Google AI Pro for Education	Will be available globally (in English) in the coming months, 18+
Customize your meeting notes with "Take notes for me"	Record all the important details with the "Take notes for me" feature in Google Meet. Select the "Longer" option from the "Notes Length" menu to capture robust notes for technical discussions, complex project meetings, IEP reviews, faculty planning, or board sessions. Learn more	Google AI Pro for Education	Available globally, 18+
Turn long PDFs into digestible audio with Gemini in Drive	Turn PDFs in Google Drive into podcast-style Audio Overviews to help educators prep for lessons on the go and give students accessible study tools. Convert dense materials into engaging, mobile-friendly formats to grasp the main points of your PDF. Learn more	Google AI Pro for Education	Available globally, 18+
Improve your writing by grounding Gemini in your sources in Docs	When writing in Google Docs, you can now guide Gemini to use the sources linked in your document. Get writing help based only on sources you trust and ensure accuracy without switching tabs. Learn more	Google AI Pro for Education	Available globally, 18+

Google Workspace for Education

Google Workspace for Education

Launch	Product/feature description	Edition	Availability
Google Workspace for Education			
Automate tasks with Google Workspace Studio	Education users can now create AI agents to automate repetitive, everyday work. Let Gemini-powered agents handle inbox and document management, meeting note analyses, and project tracking so you can focus on teaching and learning. Learn more	All editions Paid editions and add-ons have access to higher limits and usage quotas	Available globally
Connect Workspace data logs with SecOps	Enhance threat detection by exporting your Workspace audit data directly into the Google Workspace SecOps data connector. This integration allows for deeper investigation and faster remediation of security incidents. Learn more	Education Standard Education Plus	Available globally
Get more control over Meet live stream viewership	Let Google Meet hosts decide who can view their live streams, including participants outside of your institution's community. And limit access to a live stream to specific users or groups, instead of the entire domain. Learn more	Teaching and Learning add-on Education Plus	Available globally
Delegate chat moderation with new roles in Chat spaces	Ensure your Google Chat spaces are securely managed by assigning both an owner and manager role within Chat spaces. Empower your support staff to assist with daily moderation while you retain full administrative oversight as the space owner. Learn more	All editions	Available globally

Instructional support			
Tackle tasks with the Google Classroom app in Gemini	Save on time-consuming tasks by allowing Gemini to collaborate with the Classroom app. Let Gemini use context from your classes to get help drafting assignments or summarizing student progress. Learn more	All editions	Will be available globally (English only)
Reimagine assessments and connections with seamless audio and video recording	• **Deliver engaging announcements:** Capture student attention right from the class stream. Replace static text updates with personal video messages or audio reminders to keep the class connected and informed. • **Bring lessons to life:** Engage students and clarify instructions by recording audio, video, or screen captures directly within the assignment workflow. • **Personalize feedback:** Record audio or video directly in Classroom private comments when sharing feedback. Connect with students authentically and support diverse learning needs through accessible media. • **Reimagine assessments:** Give students flexible ways to demonstrate understanding and ask for help. With integrated recording tools, learners can submit verbal or visual messages in context to clarify their needs and understanding. Learn more	Teaching and Learning add-on Education Plus	Will be available globally
Tag assignments with international learning standards in Classroom	Bring your learning standards to Classroom. To support data-driven instruction, we partnered with 1EdTech and Common Good Learning Tools to enable educators to tag coursework with relevant learning standards or skills and view new analytics of student performance. Learn more	Teaching and Learning add-on Education Plus	Piloting now: US, Mexico, Canada, UK, Australia, Japan, and Brazil. Coming soon: Italy Express interest in the pilot
Stay organized with the redesigned Classroom homepage	Get tailored views with student engagement metrics for school leaders, class insights for educators, and upcoming deadlines for students. Learn more	All editions	Pilot: US, UK, Canada, Australia, New Zealand; in English. Express interest in the pilot
