

# The simplest way to collaborate intelligently in the cloud

## Enterprise-grade infrastructure and support

Drive is built on infrastructure scaled to billions of users at market-leading speeds, low latencies, 24-hour support, and comprehensive documentation and self-service.

## Painless migration

Migration tools handle the transition to Drive for you, automatically moving content and file sharing rules from any system and optimizing it for Drive.

## Effortless adoption

Drive File Stream resolves change management and adoption challenges by allowing access to shared files on demand, right from your desktop.

## Seamless interoperability

Drive works with the tools the enterprise relies on. Comment on 60+ file types, collaborate on Microsoft documents in real-time, and more.

## Use intelligence to boost efficiency

Quick Access reduces busywork by intelligently surfacing content users need, when they need it.

## Keep content secure and under control

Vault for Drive delivers powerful data retention and legal holds. Data Loss Prevention makes classification configurable, automated, and comprehensive. Protected Team Drives create secure shared spaces with simple permissions.

## Google Drive Enterprise

Transform collaboration without the pain of change.

Drive Enterprise is now available as a standalone content platform, with flexible, low-risk pricing—just \$8 per active user per month and \$.04/GB. Docs, Sheets, Slides, Sites, Forms, Security Center, Cloud Identity, and a slate of security features and controls are included.
