

Share with Care

Learn to share the right information online with people you know and those you don't. Once you share it online, it could be there forever.

Take action! For each example, decide whether it's okay to share with any of the following: friends, family, no one, public. Remember to share with care.

Your username
and password

Your favorite
music video

A photo of your class
in front of the school

Your home address
and birthday

Your email

News that your
brother is sick

A video of your
favorite dance

Photos from
your vacation

Now, complete the sentences below with what would you do in situations like these.

It is okay to share a photo or video of someone else when _____

Sharing my home and email address to the public is _____

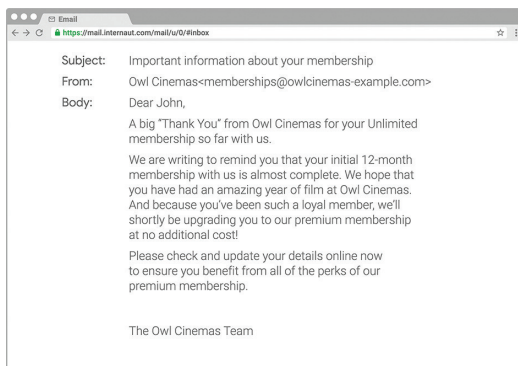

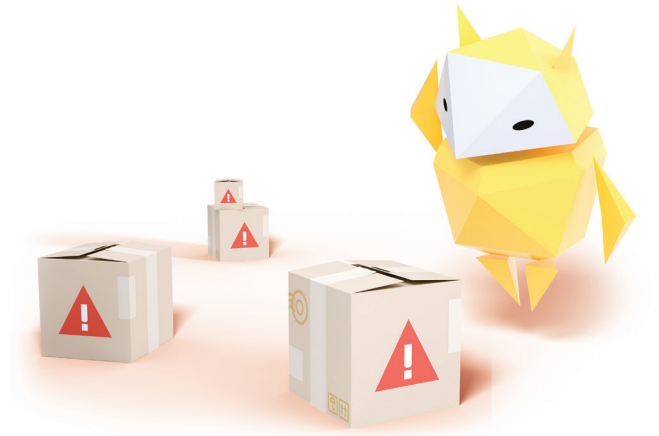

If someone asks for your password, it is best to _____
