faster deployment

68%
more software requirements met

## Find the rock-solid solutions you need

Streamlined access to thousands of solutions from the world's top technology providers.

Whatever you need:

Gen AI, security, data, analytics, industry solutions, DevOps, infrastructure, and more
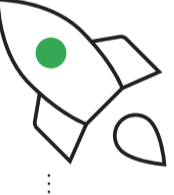

The way you need:

SaaS, APIs, containers, VMs, models, datasets

Buy what you want, the way you want

Designed for frictionless flexibility.

- Super-flexible payment options
- Subscriptions, pay-as-you-go, or custom private offers
- Buy direct or through your chosen channel partner
- Consolidate vendors and simplify billing
- Draw down on your Google Cloud commitment

Deploy as you choose —quickly and flexibly with trusted solutions

- **Easy** SaaS with partner -managed infrastructure
- **Fully-managed** options with seamless deployment to BigQuery and Vertex AI
- **Customizable** with Google Kubernetes Engine (GKE) and VM products

Manage trusted applications with a Private Marketplace

- Curate and manage collections of trusted products
- Govern and control the tech in use and mitigate "shadow IT"
- Empower end users to easily request products

A better way to cloud solutions begins on Google Cloud Marketplace

Whenever you need proven, Google Cloud-validated solutions for cutting-edge security, AI, data, analytics, and more, you'll find it on Google Cloud Marketplace.
