

Easy-to-use, reliable, and secure video conferencing

Google Meet connects your school community through classes, parent-teacher conferences, professional development, and more.

Connect from anywhere with easy-to-use video conferencing

Bring your school community together with high-quality video conferencing that's intuitive and empowers educators to focus on what matters – teaching and learning.

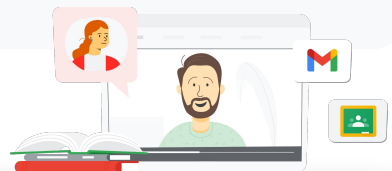

Protect your school community with industry-leading security, speed, scale, and reliability

Keep your online learning environment safe with one of the world's most advanced security infrastructures. Give admins tools for more control and visibility, and empower teachers to manage their class in a private and secure setting.

Engage your students with inclusive features built for teaching and learning

Enhance the learning experience of students in your school community with capabilities that make virtual learning even more engaging and inclusive – like breakout rooms, hand-raising, recordings, and closed captions in a variety of languages.

Provide enriched experiences beyond distance learning.

Your school community can use Meet to provide enhanced learning experiences beyond distance learning and connect with each other anytime, anywhere. Empower educators with professional development they can access from wherever they are, get parents more involved in their students' learning with remote parent-teacher conferences, inspire students with virtual guest speakers, and more.

Your teaching and learning tools – all in one place

Google Meet works seamlessly with Classroom, Gmail, Calendar, Docs, and more – all with a single sign-on. Save time and collaborate more effectively with powerful integrations, including attendance reports that automatically save to your Drive and the ability to join a video call instantly from other Google Workspace for Education tools.

Get video conferencing that's built for teaching and learning

Google Meet is a video conferencing tool included with [Google Workspace for Education](#). It works seamlessly with popular tools like Classroom, Gmail, Slides, and Docs. Boost your management, security, and engagement capabilities with an upgrade that's right for you.

Easy-to-use

- Easily join classes and meetings on any device, with no plug-ins or downloads needed
- Get high-quality video that limits data usage and is optimized for low-bandwidth connections
- Sign in once to access all Google Workspace for Education applications, including Meet
- Manage, start, and join a class-dedicated Meet link right within Classroom, or join Meet video calls directly within Docs, Sheets, and Slides to make collaboration even easier
- Easily see the content you're presenting and other participants on the call at the same time
- Enable co-hosts to help facilitate the class

Make classroom management even easier with the [Teaching and Learning Upgrade and Google Workspace for Education Plus editions](#):

- Record meetings so students can review lessons
- Track attendance with reports that show who joined and for how long
- Reduce distractions with noise cancellation powered by AI

Secure and reliable by design

- Secure and reliable infrastructure that supports global compliance like COPPA, FERPA, and GDPR
- Rest assured that data is automatically encrypted and content is ad-free
- Prevent unwanted guests from joining your meeting with safety locks and blocking anonymous attendees by default
- End meetings for everyone, and prevent students from lingering on calls without the meeting host
- Easily moderate who can chat, talk, present, and more
- Apply safety settings across your entire school or district with a few clicks in the Admin Console
- Gain insights into your school's usage with audit logs available in the Admin Console

Add advanced security and analytics tools that help you proactively protect your data with [Google Workspace for Education Standard and Education Plus editions](#):

- Identify, triage, and take action on security and privacy threats directly from the investigation tool
- Empower admins to end any meeting in your organization

Engaging and inclusive

- Host up to 100 participants and see a tiled view of up to 49 participants
- Make video conferences more inclusive with closed captions available in a range of languages
- Encourage active participation with virtual hand-raising, in-meeting reactions, and digital whiteboards
- Customize or blur backgrounds to reduce distractions and protect privacy

Enhance student engagement with the [Teaching and Learning Upgrade and Education Plus editions](#):

- Amplify student voices through Q&A, polling, and breakout rooms
- Host larger meetings – engage with up to 250 participants with the Teaching and Learning Upgrade and up to 500 participants with Education Plus and live stream for up to 100,000 viewers
- Use auto-transcription to save records of video meetings in Docs to review and search lessons
- Use Meet to live stream events through YouTube like board meetings, events, assemblies, graduations, and more
