Guardian’s Guides to Google Tools

Digital resources to help support your student’s learning.

Explore our entire range of guardian’s guides – easy-to-use resources developed to help you understand how teachers and students collaborate using Google tools and technology at school, home, and beyond.

Guardian’s Guide to Privacy and Security
Learn about Google’s commitments and how we build safer digital learning tools.

Guardian’s Guide to Accessibility
Google Workspace and Chromebooks are built with accessibility features, so your child can learn in a way that works for them.

Personalize your student’s learning experience with tips to help you get familiar with Google for Education tools.

Guardian’s Guide to Chromebooks
Chromebooks are simple, powerful, and secure devices your student can use in and out of the classroom.

Guardian’s Guide to Google Workspace for Education
Students use Docs, Slides, Sheets, Forms, and more to create and collaborate with others in real time.

Guardian’s Guide to Classroom
A central learning space for students and teachers where assignments are shared and collaboration is a breeze.

Guardian’s Guide to Google Meet
Students can create and join video meetings to work on team projects, virtually attend class if they’re sick, and more.
