PEMBELAJARAN DIGITAL
DENGAN GOOGLE WORKSPACE EDUCATION

SMPN 1 Biau Teachers are committed to carrying out the learning process in class by utilizing several Google tools, including Google Classroom.

The teacher carries out learning using the blended learning method and makes material references using Google Docs and creates online quizzes using Google Forms.

Our teachers also use Google Slides to create teaching materials while students use it for online collaboration.

Our school is able carry out learning that is more innovative and creative.

Students feel more motivated in learning activities because of the collaboration between teachers and students in using Google for Education.
