STEP TWO

Add your prompt. Or steal one of ours.

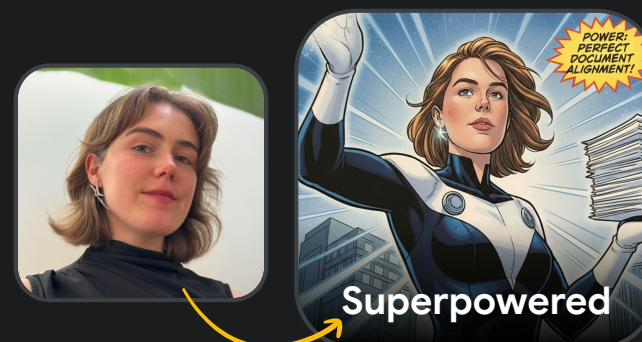

Using my uploaded selfie, give me a wild new hairstyle. Use a bold, imaginative cut. The lighting must be flattering and multidimensional. Keep the same pose, expression and background exactly the same, only changing the hairstyle.

Generate an image using this selfie of me with an 80s style makeover.

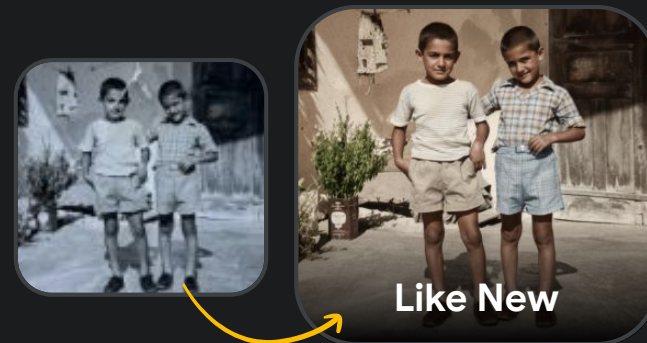

Create a 1/7 scale commercialized figurine of the characters in the picture, in a realistic style, in a real environment. The figurine is placed on a computer desk. The figurine has a round transparent acrylic base, with no text on the base. The content on a black computer monitor is a 3D modeling process of this figurine. Next to the computer monitor is a toy packaging box with a single two-dimensional flat illustration of the figurine on the front of the box and no words or logos.

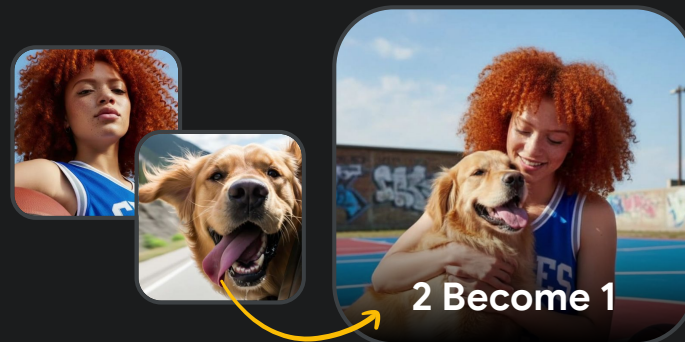

Create a vintage 1960s comic book cover featuring the person in the photo as a new superhero. The hero should be in a classic costume, set against a futuristic city, and displaying a spectacular superpower invented by the AI. The cover must have a generic title, tagline, and a 12¢ corner price, with no real brand names or logos. Use a bold, primary colour art style.

STEP TWO (cont)

Restore and colorize this photo. Preserve the appearance, expression, and pose of the people.

Create an image with the person in the photo is cuddling the dog on a basketball court.

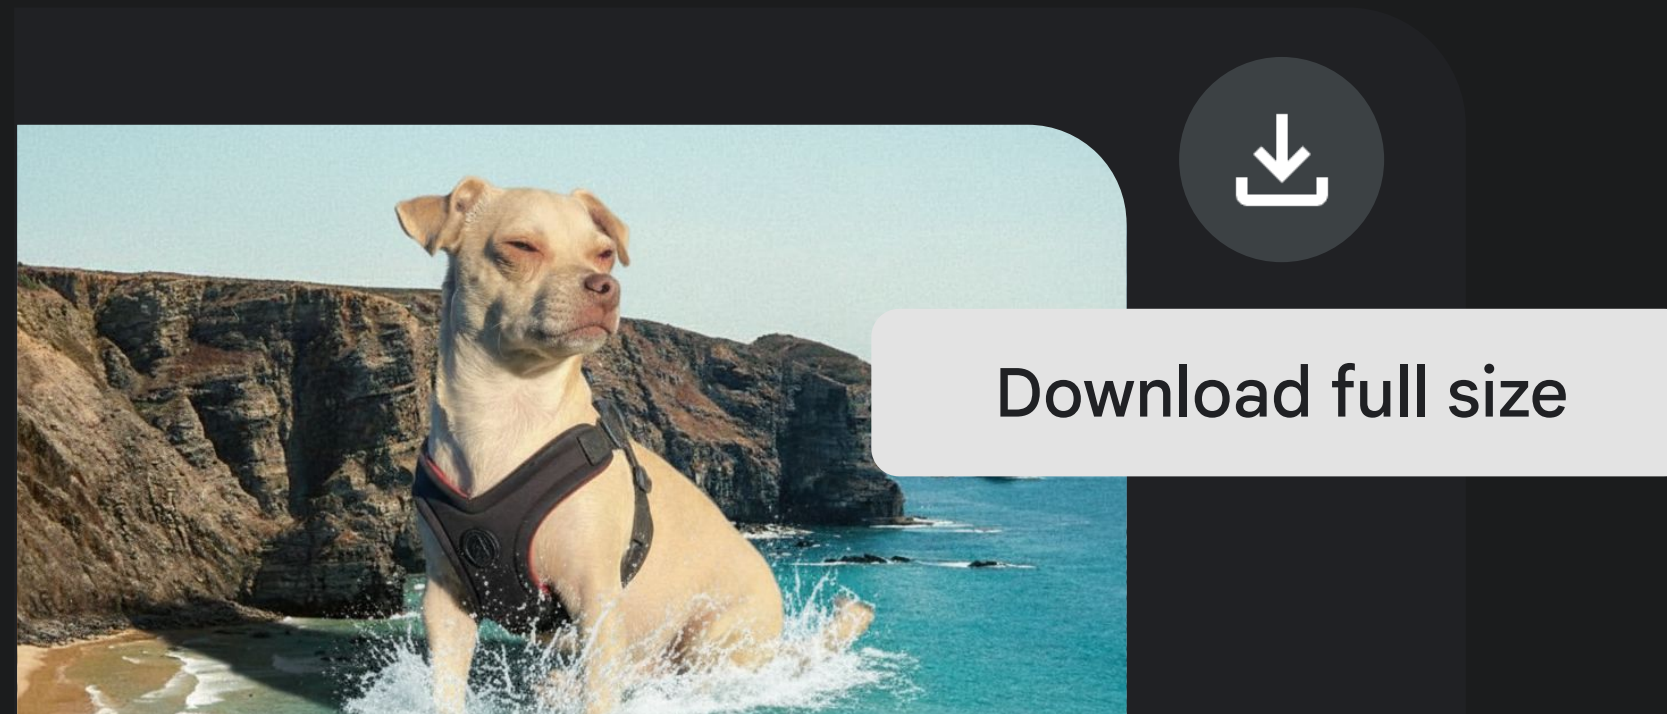

We just broke up, but I look great in this photo. Replace the guy with a giant potato. Keep the rest of the image the exact same.

Using the reference handbag, create a three-part Instagram story. A street-style shot of a fashionably dressed woman carrying the handbag in Paris.
