Google University Relations Programs
(research.google/outreach)

To cultivate collaborations with the academics, Google administers a variety of programs that provide resources and support to the academic and external research communities.

Opportunities for Faculty

/ Google's Research Grant
Not for open calls. Please reach out to Google contact to apply for.

/ Award for Inclusion Research [website]
Supports research addressing the needs of populations historically underrepresented in the tech industry (e.g. women, people with disabilities etc.). Applications open in Summer.

/ Research Scholar Program [website]
Supports research conducted by early-career faculty globally. Applications open in Fall.

/ Google Cloud Platform (GCP) [website]
Provide researchers and PhD students with computing power, storage and AI tools to develop bold ideas and make cutting-edge discoveries. Applications open any time.

/ Academic Conference Sponsorship
Sponsorship to both international and domestic academic conferences on areas relevant to Google research priorities. Not for open calls. Please reach out to Googler contact to apply for.

/ exploreCSR (CSR diversity) [website]
Awards that support universities to host computer science research (CSR) workshops in order to increase the number of students from groups traditionally underrepresented in CS. Applications open in Spring.

/ Visiting Researcher Program [website]
Academic researchers work with research and engineering teams at Google for 3-12 months.

/ Research Exchange
Research talks by people from both sides to foster research interactions and sharing.

Opportunities for Student

/ PhD Fellowship Program [website]
Fellowships recognize outstanding PhD students doing exceptional and innovative research. Applications open in March.

/ Student Travel Grants [website]
Support outstanding research students to attend leading conferences. Applications open any time (APAC tab, East Asia form).

/ Student Researcher [email]
Research internship to work with Google research / engineering teams at Google. Flexible internship period. BS, MS or PhD students are all eligible.

/ Visit to Google Office
Provides opportunities for students to visit Google offices and meet Googlers from different functions.

For any questions, please reach out to eastasia-ur@google.com
