

Professional Machine Learning Engineer

Partner Certification Kickstart is a fully on-demand certification training program exclusively for Google Cloud partners. Complete the required activities *within 10 weeks of enrollment* to be eligible for a complimentary exam voucher.

Important: Only registrations associated with a partner email domain are considered valid. Using a personal email will result in limited access to the learning platform and ineligibility for a voucher, even though program reminders may be received.

Learning platform

The [Professional Machine Learning Engineer](#) learning program (~15-20 hrs/week, ~5 weeks) is available on Google Cloud Skills Boost for Partners, the platform hosting all on-demand partner training content. *Access is available at no cost for Google Cloud partners.* If you have an account under the same email address used for registration, simply log in and follow the learning program. If not, follow [these instructions](#).¹

Important: To avoid unnecessary delays in receiving the voucher, be sure to use the same email address you used for registration to complete the required learning *within 10 weeks of enrolling*.

Voucher requirements^{2,3}

- [Register](#) with a valid Partner email & receive the welcome email
- Launching into Machine Learning
- Introduction to AI and Machine Learning on Google Cloud
- Machine Learning Operations (MLOps): Getting Started
- Build and Deploy Machine Learning Solutions on Vertex AI

Note: It can take up to 5 days after completion of learning requirements to receive the voucher.¹ Be on the lookout for an email from cloud-partner-training@google.com; it may land in spam.

Optional prep resources

- Professional Machine Learning Engineer [exam guide](#)
- Professional Machine Learning Engineer [sample questions](#)
- Register & attend an [Exam Readiness Workshop](#) (subject to availability)

Hybrid learning with Partner Certification Academy

Prefer instructor-led training? Check out the upcoming [schedule](#) for Partner Certification Academy, a hybrid training program led by Google Cloud mentors.

¹ If you still don't have access after 24 hours, send an email to cloud-partner-training@google.com

² Partners are eligible to receive one voucher per certification track, regardless of the number of training program enrollments.

³ Labs that are available in multiple programming languages may be completed in the programming language of your choice.
