

Professional Cloud Security Engineer

On-demand learning with Partner Certification Kickstart

Partner Certification Kickstart is a guided training program to help partners prepare for the Google Cloud certification exam. Complete the required activities within 10 weeks of enrollment to earn a complementary certification exam voucher.¹ The [Professional Cloud Security Engineer Certification Learning Path](#) takes approximately 15–20 hours per week over a period of 5 weeks. We recommend setting aside enough time to complete all courses² and labs.

Required activities to earn a certification exam voucher ^{1,3}

- [Register](#) on the PCK program page. A welcome email will confirm successful registration.
- Course: Managing Security in Google Cloud
- Course: Security Best Practices in Google Cloud
- Course: Mitigating Security Vulnerabilities on Google Cloud
- Skill badge: Ensure Access & Identity in Google Cloud
- Completion Badge: Google Kubernetes Engine Best Practices: Security

Required access to Google Cloud Skills Boost for Partners

Courses and labs are available 24/7 on [Google Cloud Skills Boost for Partners](#), the learning platform hosting on-demand partner training content. Access is available at no cost for Google Cloud partners. If you already have an account under the same partner email address used for Partner Certification Kickstart registration, log in and follow the learning program. If you don't have an account or are being asked for credits to access the learning material, it means you need to [create an account](#) using the same email address used to register for Partner Certification Kickstart. It can take up to 24 hours to activate the full access.⁴

Additional resources to help you prepare and register for the exam

- [Professional Cloud Security Engineer Exam Guide](#)
- [Professional Cloud Security Engineer Sample Questions](#)
- Register for an [Exam Readiness Workshop](#) (if available)
- [Step-by-step](#) instructions on how to [register for an exam](#) using a voucher

Hybrid learning with Partner Certification Academy

If you prefer instructor-led training, you can attend Partner Certification Academy, a hybrid training program that supplements on-demand learning with live workshops delivered by Google Cloud expert trainers. Complete the required learning activities to earn your complementary certification exam voucher.¹ Check out the upcoming [training schedule](#).

¹ Individuals are eligible to receive one voucher per certification track, regardless of the number of training program enrollments.

² Individuals with AWS or Azure experience may substitute the Google Cloud Fundamentals: Core Infrastructure course with [Google Cloud Fundamentals for AWS Professionals](#) or [Google Cloud Fundamentals Azure Professionals](#).

³ Labs that are available in multiple programming languages may be completed in the programming language of your choice.

⁴ If after 24 hours you still don't have access, send an email to partner-training@google.com.
