# Professional Cloud Security Engineer

Partner Certification Kickstart is a guided training program, exclusively for Google Cloud Partners, designed to help prepare for the certification exam. It's provided at no cost and includes a voucher to cover the certification exam fee, unlimited use of Google Cloud Skills Boost for Partners (the learning platform for all on-demand partner training content), and access to Google Cloud training mentors.

## Register

> **Important**: Program benefits are only available to individuals that register with a Partner email domain. A welcome email confirms registration, but not eligibility. If you don't receive the welcome email within 24 hours of registration, try to register again or contact the support team.

## Learning platform

The Professional Cloud Security Engineer certification learning program (~15-20 hrs/week, ~5 weeks) is available on Google Cloud Skills Boost for Partners, the platform hosting all on-demand partner training content. *Access to the platform is provided at no cost to Google Cloud partners. → If you already have a platform access under the same email address used for registration, simply log in and follow the learning program. If you do not already have platform access, or if you encounter errors accessing content, follow these instructions [2] to create or migrate an account.*

> **Important:** To avoid voucher delays, use the same partner email address used for registration to complete learning within 10 weeks.

## Voucher requirements [1,3]

- Register with a valid Partner email. *Without registering for the program, you may not be entitled to a voucher.*
- Complete *All* of the modules listed below:
    - Build a Secure Google Cloud Network
    - Implement Cloud Security Fundamentals on Google Cloud
    - Mitigate Threats and Vulnerabilities with Security Command Center

> **Important:** It can take up to 5 days after registration and learning completion to receive the voucher.[1] Be on the lookout for an email from cloud-partner-training@google.com; it may land in spam.

## Optional prep resources

- **Professional Cloud Security Engineer** Exam Guide
- **Professional Cloud Security Engineer** Sample Questions
- Register for an Exam Readiness Workshop (subject to availability)

## NEW: Prepare in multiple languages

Partner Certification Kickstart can help you **prepare** in multiple languages. **Important:** Check the Google Cloud Certification website for the **specific exam languages** offered for each certification (varies by certification).

| PCK 日本語 | PCK Español | PCK Français | PCK Português |
