Professional Security Operations Engineer

Partner Certification Kickstart is a guided training program, exclusively for Google Cloud Partners, designed to help prepare for the certification exam. It's provided at no cost and includes a voucher to cover the certification exam fee, unlimited use of Google Cloud Skills Boost for Partners (the learning platform for all on-demand partner training content), and access to Google Cloud training mentors.

Register

> **Important**: Program benefits are only available to individuals that register with a Partner email domain. A welcome email confirms registration, but not eligibility. If you don't receive the welcome email within 24 hours of registration, try to register again or contact the support team.

Learning platform

The Professional Security Operations Engineer certification learning program (~30 hrs) is available on Google Cloud Skills Boost for Partners, the platform hosting all on-demand partner training content. *Access to the platform is provided at no cost to Google Cloud partners. → If you already have a platform access under the same email address used for registration, simply log in and follow the learning program. If you do not already have platform access, or if you encounter errors accessing content, follow these* instructions[1] *to create or migrate an account.*

> **Important:** To avoid voucher delays, use the same partner email address used for registration to complete learning within 4 weeks.

Voucher requirements [2,3,4]

The number of vouchers an organization is eligible to receive is based on their Partner Advantage level.[3]

- Register with a valid Partner email. *Without registering for the program, you will not automatically receive a voucher.*
- Earn the following skill badges
  - Navigate Security Decisions with Gemini
  - Explore false positives through incident detection
  - Mitigate Threats and Vulnerabilities with Security Command Center

> **Important:** It can take up to 5 days after registration and learning completion to receive the voucher.[1] Be on the lookout for an email from cloud-partner-training@google.com; it may land in spam.

Optional prep resources

- Professional Security Operation Engineer exam guide
- Professional Security Operation Engineer sample questions

NEW: Prepare in multiple languages

Partner Certification Kickstart can help you **prepare** in multiple languages. **Important:** Check the Google Cloud Certification website for the **specific exam languages** offered for each certification (varies by certification).

PCK	PCK_Español	PCK_Français	PCK_Português

Hybrid learning with Partner Certification Academy

Prefer instructor-led training? Check out the upcoming schedule for Partner Certification Academy, a hybrid training program led by Google Cloud mentors.[2]

---
