

# Expand your students' horizons with Google Arts & Culture

## A rich resource for teachers and students

Google Arts & Culture contains a vast, global collection of cultural artifacts and stories from over 2,000 museums, galleries, historic sites, research centers and artists. Topics include art and design, craft, performance, the natural world, physics, architecture, chemistry, invention and discovery, and much more.

**Explore** - Browse content from a wide range of subject areas

## What will happen to Google Expeditions?

With most of the Google Expeditions content moving to Google Arts & Culture, the Google Expeditions app will no longer be available for download and Tour Creator will no longer be accessible as of June 30, 2021. On the back side, discover other ways you can use your existing kit. For additional information, please see the [Expeditions Help Center](#).

# Google Workspace for Education

Explore other VR apps with your existing headsets

Your kits are compatible with many other VR apps. Here are a few examples:

App	Focus	App store detail
