

Safer learning with Google for Education

Providing a safer digital-learning environment is an essential objective of Google for Education, so everyone can teach and learn knowing that their personal information is private, and their educational tools are secure.

Secure by default

Protect your institution with enterprise-grade security built into Google for Education.

Private by design

Prioritize privacy with tools that uphold the highest standards of digital responsibility.

You're in control

Retain full control of your school's data with easy-to-use privacy and security settings.

Content you can trust

Access high-quality, reliable educational resources.

Cybersecurity is more important than ever for school communities

- Educational institutions and their data remain a [top target for cyberattacks](#) globally
- [96% of education institutions](#) lose their ability to operate after a cyberattack – sometimes for months at a time

Google keeps more people safe online than anyone else in the world

- There have been no reported successful ransomware attacks or viruses on Chromebooks*
- Google Workspace is one of the [world's most secure](#) and popular cloud-based communication and collaboration suites

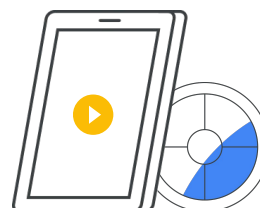

Supports compliance with rigorous privacy and security standards

Google for Education supports [compliance](#) with the most rigorous global education standards for security and privacy, and we're audited by independent, third-party organizations.

* According to our monitoring of [crlbug.com](#), [chromium.org](#), National Vulnerability Database, and customer feedback in Chrome's vulnerability reward program.

Every day is safer with Google

PRIVACY AND SECURITY

Get industry-leading education technology that provides a safer digital learning environment for each school, classroom, and student.

Secure by default

- **Automatic protections** ensure devices are up to date against the latest threats
- **Proactive blocking** with 24/7 monitoring and AI-powered detection helps prevent security issues
- **Enterprise-grade scalability** and reliability is designed to handle extreme shifts in activity to ensure 99.9% uptime
- **Customized tips and recommendations** help you stay ahead of digital threats
- **AI-powered safeguards** automatically block threats before they ever reach you

Private by design

- **Supports compliance** with rigorous global privacy standards, like FERPA, COPPA, and GDPR
- **No advertising** in Google Workspace for Education Core Services, and personal information is never used or sold to third parties for ad targeting
- **Transparency you can trust**, with strict security protocols to protect your school's personal information and full transparency into our privacy policies

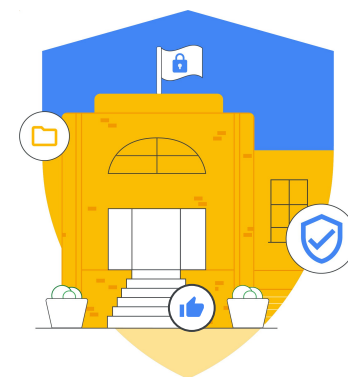

You're in control

- **Retain full control** over your institution's data while managing how, when, and where service data can be accessed – and easily change default settings if you see fit, to set age-appropriate content
- **All-in-one-place** security dashboard offers real-time alerts and a place where admins can change domain-level or individual settings across devices, applications, browsers, and more
- **Analytics and insights** customized to your needs with usage reports in the security dashboard
- **Advanced security options** to suit your institution's needs

Content you can trust

- **Safer browsing and age-based content** in Google Search and YouTube limit content that might be inappropriate for students under the age of 18
- **Rigorous content standards** mean that third-party products and services, and build-solution partners, must meet and maintain our bar for safety and quality to integrate with our tools
- **Digital responsibility** resources and training provided at no charge to help support internet safety
- **Secure access to generative AI tools** is controlled by school admins – and your data is not used to improve AI models, train AI models, or shared

Add premium capabilities to fit the specific needs of your institution

Get additional security features within your security center to proactively protect your school's data and devices. Upgrades include:

- Google Workspace for Education Plus
- Google Workspace for Education Standard

Create a secure foundation for teaching and learning with Google for Education

Rely on built-in, automated features that provide comprehensive and ongoing monitoring and mitigation while also minimizing disruptions across productivity tools, hardware, device management, and more with:

- Google Workspace for Education Fundamentals*
- Chromebooks
- Chrome Education Upgrade
- Google for Education App Hub

* Available at no charge for [qualifying institutions](#).
