Consent Banner and Consent Mode implementation steps

Self serve available

Get started in 5 easy steps

1. **Log in and Access Cookie Consent:** Go to Seers, [log in](#), and click on the Cookie Consent option from the dashboard.
2. **Add Your Domain and Open Preferences:** In the Domain Manager, click Add Domain, enter your domain details (name, scan frequency, and email), then click Save.
3. **Install the Banner Script:** Access the Get Code page.
Choose to either:
 - Manually insert the script into your site's `<head>` section, or
 - Deploy it using [Google Tag Manager](#).
4. **Navigate to Preferences:** After installing the banner, click customisation through the setup pages on your dashboard, and go to the Preferences tab on the Customise page.
5. **Enable Google Consent Mode v2:** Google Consent Mode v2 is enabled by default under Frameworks. Review the settings and click Save to confirm and apply any changes.
