Certificate FR26/00000215

The management system of

GOOGLE LLC

Mountain View, California, United States of America

has been assessed and certified as meeting the requirements of

HDS V2

« Hébergement de données de santé »

For the following activities

The Scope of Registration appears on page 2 of this certificate

This certificate is valid from 6 November 2026 until 14 May 2027 and remains valid subject to satisfactory surveillance audit Issue 1. Organization certified since 19 July 2022 and first certified by SGS on 6 November 2026.

This certificate remains valid subject to the client holding a valid ISO 27001 certification for the same scope.

Certified activities performed by additional sites are listed on subsequent pages.

GOOGLE LLC

HDS V2

Issue 1

The scope of this 'Health Data Host (HDS) certification framework – version 2.0' certification is limited to the Google Cloud information security management system, which is implemented in the following Product Area, its offerings and locations as listed below, along with the data contained or collected by those offerings. The scope of this 'Health Data Host (HDS) certification framework – version 2.0' certification is limited to Enterprise Customers.
In accordance with the certification scope, the following activities are applicable to the below-listed locations within the European Economic Area (EEA):
1. The provision and maintenance in operational condition of physical sites for hosting the hardware infrastructure of the information system used to process the health data;
2. The provision and maintenance in operational condition of the hardware infrastructure of the information system used to process the health data;
3. The provision and maintenance in operational condition of the virtual infrastructure of the information system used to process the health data;
4. The provision and maintenance in operational condition of the platform for hosting information system applications; and
5. The management and operation of the information system containing the health data.
