Scope for certificate 2024-015

The scope of this ISO 14001:2015 certification is as follows:

The scope and boundaries of the Environmental Management System include the following operations within the legal boundaries of the Google owned and operated data centers in Europe:

- Data Center Operations including all the activities involved in running and maintaining a data center, including providing IT services, managing infrastructure, ensuring security and logistics
- Support services contracted to external providers within the data center campus, such as technical maintenance, catering, landscaping, and cleaning
- Any facility improvements and upgrades managed under MARCUS Program that take place on campus and are executed within an operational area

The following are excluded from the scope of the Environmental Management System:

- Design and Construction Activities

The Environmental Management System is centrally managed out of Eemshaven, the Netherlands.

The scope mentioned above applies to the following data center locations:

- Dublin, Ireland
- Eemshaven, Groningen, the Netherlands
- Fredericia, Denmark
- Ghlin, Hainaut, Belgium
- Hamina, Finland

The Environmental Management System mentioned in the above scope is restricted as defined in "EMS-II-001 EMS Manual" version 4.0, dated January 10, 2025.

This scope is only valid in connection with certificate 2024-015.
